Call to Order

Roll Call

Approval of Agenda

Report on Posting of Agenda –October 2, 2020

**1. Written and Oral Communications from the Public and Commissioners**

- A. Communications from the Public concerning matters which are not on the agenda but for which the Commission has subject matter jurisdiction. The Commission may not act on these matters at this meeting. (30 minutes total time allotted)
- B. Staff Updates. (5 minutes total time allotted)

- C. Commissioner reports, comments and inquiries. (15 minutes total time allotted)

**2. Consent Calendar**

- A. Previously Discussed Items

None.

- B. New Items

- 1. Approval of Minutes – September 10, 2020

Staff recommendation: Approve minutes of the Public Works Commission Special meeting September 10, 2020.

Staff contact: Senior Administrative Assistant Ayala, 310-456-2489 ext. 352

**3. Old Business**

None.

**4. New Business**

- A. Capital Improvement Projects and Disaster Recovery Projects Status Report

Staff recommendation: Receive and file report on the status of the City’s current and upcoming Capital Improvements Projects and Disaster Recovery Projects.

Staff contact: Assistant Public Works Director Chase, 310-456-2489 ext. 370

- B. City of Malibu Trash Receptacles, Including Receptacles Located on Pacific Coast Highway (PCH) near Zuma Beach

Staff recommendation: Receive and file report on existing City trash receptacles, including receptacles located on PCH near Zuma Beach and possibly relocating existing receptacles located within current No Parking zones.

Staff contact: Public Works Superintendent Hart, 310-456-2489 ext. 341

**Adjournment**

**Future Meetings**

Thursday, November 12, 2020	3:30 p.m. Regular Meeting	Location to be determined
Thursday, December 10, 2020	3:30 p.m. Regular Meeting	Location to be determined
Thursday, January 27, 2020	3:30 p.m. Regular Meeting	Location to be determined

**Guide to the City Commission Proceedings**

**The Oral Communication** portion of the agenda is for members of the public to present items which are not listed on the agenda, but are under the subject matter jurisdiction of the Commission. Although no action may be taken, the Commission and staff will follow up, at an appropriate time, on those items needing response. Each speaker is limited to three (3) minutes. Members of the public wishing to speak during the meeting must participate through the Zoom application. You must first sign up to speak before the item you would like to speak on has been called by the Mayor and then you must be present in the Zoom conference to be recognized. Please visit <https://malibucity.org/VirtualMeeting> and follow the directions for signing up to speak and downloading the Zoom application.

**Items in Consent Calendar Section A** have already been considered by the Commission at a previous meeting where the public was invited to comment, after which a decision was made. These items are not subject to public discussion at this meeting because the vote taken at the previous meeting was final. Resolutions concerning decisions made at previous meetings are for the purpose of memorializing the decision to assure the accuracy of the findings, the prior vote, and any conditions imposed.

**Items in Consent Calendar Section B** have not been discussed previously by the Commission. If discussion is desired, an item may be removed from the Consent Calendar for individual consideration. Commissioners may indicate a negative or abstaining vote on any individual item by so declaring prior to the vote on the motion to adopt the entire Consent Calendar. Items excluded from the Consent Calendar will be taken up by the Commission following the action on the Consent Calendar. The Commission first will take up the items for which public speaker requests have been submitted. Public speakers shall follow the rules as set forth under Oral Communication.

**Old Business** items have appeared on previous agendas but have either been continued or tabled to this meeting with no final action having been taken. Public comment shall follow the rules as set forth under Oral Communication.

**Items in New Business** are items which are appearing for the first time for formal action. Public comment shall follow the rules as set forth under Oral Communication.

*Copies of the staff reports or other written documentation relating to each item of business described above are on file in the office of the Public Works Department, and available upon request by emailing [bayala@malibucity.org](mailto:bayala@malibucity.org).*

*The City Hall phone number is (310) 456-2489. To contact City Hall using a telecommunication device for the deaf (TDD), please call (800) 735-2929 and a California Relay Service operator will assist you. In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact Yolanda Bundy, Environmental Sustainability Director, at (310) 456-2489, ext. 229. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting. [28 CFR 35.102-35.104 ADD Title II].*

I hereby certify under penalty of perjury, under the laws of the State of California, that the foregoing agenda was posted in accordance with the applicable legal requirements. Dated this 2<sup>nd</sup> day of October 2020, at 1:00 p.m.

# Public Works Commission Agenda Report

Public Works  
Commission Meeting  
10-08-20

**Item  
2.B.1.**

To: Chair Merrick and Members of the Public Works Commission

Prepared by: Brandie Ayala, Senior Administrative Assistant

Approved by: Robert DuBoux, Public Works Director/City Engineer

Date prepared: September 30, 2020 Meeting date: October 8, 2020

Subject: Approval of Minutes –September 10, 2020

---

**RECOMMENDED ACTION:** Approve minutes of the Public Works Commission Special meeting September 10, 2020.

**DISCUSSION:** Staff has prepared draft minutes for the Public Works Commission special meeting of September 10, 2020 and hereby submits the minutes for Commission approval.

**ATTACHMENTS:**

1. Draft Minutes of September 10, 2020 Public Works Commission Special Meeting

MINUTES  
MALIBU PUBLIC WORKS COMMISSION  
SPECIAL MEETING  
SEPTEMBER 10, 2020  
TELECONFERENCED - VARIOUS LOCATIONS  
3:30 P.M.

**The following meeting was held pursuant to the Governor's Executive Orders N-25-20 and N-29-20 and fully teleconferenced from various locations during the coronavirus disease (COVID-19) pandemic.**

CALL TO ORDER

Chair Merrick called the meeting to order at 3:32 p.m.

ROLL CALL

The following persons were recorded in attendance by the Recording Secretary:

PRESENT: Chair Brian Merrick; Vice Chair Lance Simmens; and Commissioners Scott Dittrich, Paul Grisanti, James Palmer (arrived at 3:37 p.m.)

ALSO PRESENT: Rob DuBoux, Public Works Director; Adam Chase, Assistant Public Works Director; Travis Hart, Public Works Superintendent; Brandie Ayala, Senior Administrative Assistant; Parker Davis, Media Technician; and Mary Linden, Executive Assistant

APPROVAL OF AGENDA

MOTION Commissioner Grisanti moved and Commissioner Dittrich seconded a motion to approve the agenda. The question was called and the motion carried 4-0, Commissioner Palmer absent.

REPORT ON POSTING OF AGENDA

Senior Administrative Assistant Ayala reported that the agenda for the meeting was properly posted on September 4, 2020.

ITEM 1.A. PUBLIC COMMENTS

None.

ITEM 1.B. STAFF UPDATES

Assistant Public Works Director Chase announced the Civic Center Water Treatment Facility (CCWTF) Phase 2 community meeting on Thursday, September 17, at 6:00 p.m. He stated the public and commissioners were welcome to attend and could sign up to speak.

Commissioner Palmer arrived at 3:37 p.m.

Public Works Superintendent Hart stated crews were still spending a lot of time, including weekends, cleaning trash due to heavy numbers of visitors. He stated they cleared brush near Corral Canyon and were replacing blue reflective pavement markers near fire hydrants.

ITEM 1.C. COMMISSIONER COMMENTS

Chair Merrick suggested the City take inventory of trash receptacles, including those on PCH near Zuma where parking was prohibited. He stated the City should reconsider where those trash cans were located. Public Works Superintendent Hart stated he would look into it and bring information back to the Commission.

Commissioner Grisanti discussed a pothole on westbound PCH at Trancas Canyon Road. He asked if the City could make the repair.

Vice Chair Simmens stated the right eastbound lane on PCH at Cross Creek Road was very lumpy. He stated it was treacherous for bicyclists and motorcycle riders. Public Works Superintendent Hart stated Caltrans planned to include repair of that area in an upcoming maintenance project.

Commissioner Dittrich suggested repairs to the westbound left turn lane from PCH onto Webb Way also be included in the maintenance project.

Commissioner Palmer discussed Public Works Director DuBoux's statement at the August 13, 2020 meeting that the City's property on Civic Center Way could not be used for parking. He discussed a drive-in movie event held there last week. He questioned why it could not be opened for temporary parking.

Vice Chair Simmens agreed with Commissioner Palmer. He stated the City's lot was usable and should not be prohibited from being used for parking.

Assistant Public Works Director Chase stated a limited number of temporary permits were allowed on the City's property per year. He stated permits were approved through the Planning Department with review from Public Works.

Commissioner Dittrich stated it should be declared a COVID-19 emergency. He stated motorists could be charged for parking. He stated Item No. 2.B. on Council agendas allowed for Commission reports, and Chair Merrick could speak about this.

Commissioner Palmer stated there was insufficient parking, which could be a public safety issue. He stated Volunteers on Patrol (VOP) could be used to monitor the parking lot.

Assistant Public Works Director Chase stated he would look into bringing back an item on next month's agenda.

Commissioner Grisanti stated a Commission report could not be given since the topic had not been on a Commission agenda for discussion. He suggested commissioners express individual opinions under public comment at the next City Council meeting.

Commissioner Dittrich discussed brush clearance conducted in the Rambla area. He stated a section on Castlewood Drive was missed. Public Works Superintendent Hart stated Castlewood was located outside the city limits and was a private street, so the City would not clear brush there.

ITEM 2            CONSENT CALENDAR

Senior Administrative Assistant Ayala stated the agenda listed an incorrect date in the subject line for Item No. 2.B.1. She stated the correct meeting date of August 13, 2020 was indicated in the recommended action and would be reflected in the minutes.

MOTION        Vice Chair Simmens moved and Commissioner Palmer seconded a motion to approve the Consent Calendar. The question was called and the motion carried unanimously.

The Consent Calendar consisted of the following items:

- A.    Previously Discussed Items  
None.
- B.    New Items
  - 1.    Approval of Minutes – August 13, 2020  
Staff recommendation: Approve minutes of the Public Works Commission Special meeting of August 13, 2020.

ITEM 3            OLD BUSINESS

None.

ITEM 4            NEW BUSINESS

- A.    Capital Improvement Projects and Disaster Recovery Projects Status Report  
Recommended Action: Receive and file report on the status of the City's current and upcoming Capital Improvements Projects and Disaster Recovery Projects.

Assistant Public Works Director Chase presented the report.

Chair Merrick asked if the septic system at Trancas Park was not working. Assistant Public Works Director Chase stated the system was damaged in the Woolsey Fire and needed to be repaired.

Public Works Superintendent Hart stated construction projects were up to date with no significant changes since last month's report. He stated staff was addressing project and equipment submittals received from the contractor for the Civic Center Way Improvements Project. He stated mobilizing for the project had begun and Best Management Plan/(BMP) devices and changeable message signs (CMS) would be out next week. He stated temporary traffic control measures, such as lane closures and street closures on Civic Center Way were anticipated to begin September 21. He stated that once the date was confirmed, additional public notifications would be provided on the website, through email and text alerts, and with doorhangers.

Commissioner Dittrich requested an update on painting signage on Malibu Canyon Road near the Harbor Vista area. Vice Chair Simmens added it had been requested that "keep clear" be painted on the traffic lanes.

Public Works Director DuBoux stated the City was working on incorporating these pavement markings into an upcoming project.

Commissioner Dittrich requested update on the Latigo Canyon retaining wall project. Assistant Public Works Director Chase stated the City needed sign-off from the California Office of Emergency Services (Cal OES). He stated the City was moving forward with the concrete option as recommended by the Commission at its August 13, 2020 meeting.

Chair Merrick asked about the status of installing speed humps in Point Dume. Public Works Director DuBoux stated the project was out to bid with bids due by the end of September.

Commissioner Grisanti asked if delays had resulted in loss of financing for work on Civic Center Way. Public Works Director DuBoux stated funding was good for project.

B. Pacific Coast Highway Signal Synchronization Project Update

Recommended Action: Receive and file report on the status of the Pacific Coast Highway (PCH) Signal Synchronization Project.

Assistant Public Works Director Chase offered a presentation and provided an overview of the project. He provided a separate presentation on the Visual Traffic Simulation (VISSIM) adaptive signal system component of the project.

In response to Commissioner Grisanti, Assistant Public Works Director Chase stated Caltrans and the City would have control over messaging on the CMS. Commissioner Grisanti asked if the City could take over control of the system if Caltrans became inoperable, such as during an earthquake. Assistant Public Works Director Chase stated he would bring that up to Caltrans and report back.

Commissioner Dittrich expressed concern about the size of the CMS. Assistant Public Works Director Chase stated the sign size was modified to fit the location where it was placed.

In response to Commissioner Grisanti, Assistant Public Works Director Chase confirmed these signs were specially made for this project and would be smaller than the moveable CMS or the larger versions seen on freeways.

In response to Commissioner Palmer, Assistant Public Works Director Chase confirmed the CMS were coordinated with the signal system.

Vice Chair Simmens expressed concern for residents along PCH who needed time to back out of their driveways. Assistant Public Works Director Chase stated there would be gaps in the traffic flow due to opposing traffic and minor road entries. He stated the real-time data would allow Caltrans to make necessary adjustments.

In response to Commissioner Grisanti, Assistant Public Works Director Chase stated the signals would synchronize for the speed limit or slower speeds, if necessary. In response to Commissioner Grisanti, Assistant Public Works Director Chase stated the cameras would capture other violations but that information would be subjected for Sheriff review.

Commissioner Dittrich stated the cameras could be a useful tool for the Sheriff's Department.

Assistant Public Works Director Chase stated the project was a steppingstone that could provide additional benefits to the City over time.

Commissioner Palmer asked if there was a specific length of time the signals would stay on green. Assistant Public Works Director Chase stated it was dynamic based on real-time data.

Commissioner Dittrich asked what would happen if the highway was overloaded, such as happened during Woolsey Fire evacuation. Assistant Public Works Director Chase discussed options that could be utilized by the system based on priority.

Chair Merrick requested staff ask Caltrans to check if the sensor at PCH at John Tyler Drive had been damaged during paving work resulting in the signal staying red longer on PCH. Public Works Superintendent Hart stated the work done was a type two slurry that should not have impacted the sensor. He stated he would bring it up with Caltrans.

Commissioner Dittrich asked if it had been considered to have a CMS for traffic on Topanga Canyon Boulevard approaching PCH. He stated it could be valuable for instructing those exiting Topanga Canyon which direction to go. Assistant Public Works Director Chase stated there would be a sign as close as possible to Topanga Canyon. He stated the success of a project like this could lead to similar projects in the future.

#### ADJOURNMENT

MOTION At 4:38 p.m., Commissioner Grisanti moved and Commissioner Palmer seconded a motion to adjourn. The motion carried unanimously.

Approved and adopted by the Public Works Commission of the City of Malibu on \_\_\_\_\_.

# Public Works Commission Agenda Report

To: Chair Merrick and Members of the Public Works Commission

Prepared by: Adam Chase, Assistant Public Works Director/City Engineer

Approved By: Robert DuBoux, Public Works Director/City Engineer

Date prepared: September 30, 2020 Meeting date: October 8, 2020

Subject: Capital Improvement Projects and Disaster Recovery Projects Status Report

---

**RECOMMENDED ACTION:** Receive and file report on the status of the City's current and upcoming Capital Improvements Projects and Disaster Recovery Projects.

**DISCUSSION:** Staff will provide a status update on the following active projects in the Fiscal Year 2020-2021 Capital Improvement Program:

## Capital Improvement Projects (Design)

- Marie Canyon Green Streets
  - Monthly Updates:
    - Funding waiting Measure W appropriation.
- PCH Median Improvements Project
  - Monthly Updates:
    - 65% design package underway.
  - Project Schedule:
    - Complete Design: February 2021
    - Begin Construction: Fall 2021
- PCH Signal Synchronization
  - Monthly Updates:
    - 65% design package underway.
  - Project Schedule:
    - Complete Final Design: July 2021
    - Advertise: September 2021
    - Award Contract and Begin Construction: December 2021

- Civic Center Stormwater Diversion Structure
  - Monthly Updates:
    - Los Angeles County Flood Control maintenance agreement is pending both City and County approvals.
  - Project Schedule:
    - Complete Design: Awaiting maintenance agreement.
    - Begin Construction: 2021
- Westward Beach Road Improvements Project
  - Monthly Updates:
    - City to obtain easement with Los Angeles County Beaches and Harbors.
  - Project Schedule:
    - Complete Design: Completed
    - Begin Construction: Pending easement documents
- Civic Center Wastewater Treatment Facility Phase 2
  - Monthly Updates:
    - Individual community meetings occurred before Covid-19.
    - Past Presentations are posted here on the City's website under Stakeholders Section:
      - <https://www.malibucity.org/ccwtf>
    - Tasks underway:
      - Design:
        - Project Design 65% plans are underway.
  - Project Schedule:
    - Next Live Stream Community Meeting: December 2020 TBD.
    - Complete Design: December 2021
    - Community Meetings are still being held with Zoom video conferencing software.
    - Begin Construction: March 2022
    - Milestones achieved:
      - Draft Project Design Report May 2020, 30% Plans for Pipeline Construction / 50% Plans for Treatment Facility.

#### Disaster updates

The City continues to work with FEMA and CalOES towards the completion of each project. At this time, all projects have been obligated.

#### Disaster Projects

After the Woolsey Fire was extinguished, the City also suffered from unprecedented rainfall from December through February 2019. The City has identified fifteen repair projects within the City's 2019-2024 Five Year Capital Improvements Program (CIP). The City was eligible to apply for various funding sources through the California Governor's Office of Emergency Services (CalOES) and the Federal Government

(FEMA). The City has been working with FEMA and CalOES representatives to apply for and receive federal disaster aid. In addition to direct relief for emergency response and damaged infrastructure, CalOES and FEMA provide funding for potential hazard mitigation projects.

The following is a summary of Disaster Recovery Capital Improvement Projects:

- Malibu Park Drainage Improvements
  - This project consists of the design and construction to repair and improve several drainage structures located within the Malibu Park Neighborhood and Birdview Avenue. Locations are included along Cuthbert Road, Busch and Harvester, Morning View Drive, and Birdview Avenue. These repairs and improvements are a result of the severe storm drainage failures associated with the aftermath of the Woolsey Fire. Design is currently underway with an anticipated out to bid date October 2020. The City will manage the design, permitting, bidding, and construction phase of the project.
- Broad Beach Road Water Quality Infrastructure Repairs (CalOES Project)
  - The City owns several hundred feet (+800') of water quality permeable pavers, landscaping, and underground bio-filtration devices located on Broad Beach Road. Several sites (#1 Filterra Unit across from 31322, #2 Filterra Unit across from 31302 & #8 Street Pavers across from 30860) were damaged by silts, mud, and debris during the 2019 storm events. This project consists of repairing the permeable pavers, replacement of media material in the bio-filters and replacing damaged landscaping. The City will manage the design, permitting, bidding, and construction phase of the project.
  - Status: Staff efforts to create construction bidding documents are currently under way.
- Latigo Canyon Road Roadway/Retaining Wall Improvements (FEMA/CalOES Project)
  - This project consists of repairing the roadway and the three existing timber retaining walls on Latigo Canyon Road that were damaged from the Woolsey Fire. The City will manage the design, permitting, bidding, and construction phase of the project.
  - Status: Structural Engineering recommendations have been completed, City is incorporating into the project.
- Trancas Canyon Park Planting and Irrigation Repairs (FEMA/CalOES Project)
  - This project consists of repairing the damaged planting and irrigation system that was destroyed by the Woolsey Fire. The project also includes the repair of the septic system in Trancas Canyon Park. The City will manage the design, permitting, bidding, and construction phase of the project.
  - Status: Staff efforts to create construction bidding documents are currently under way.

- Trancas Canyon Park Slope Stabilization Project (CalOES Project)
  - The project consists of repairing the existing slope east of Trancas Canyon Park. The Woolsey Fire damaged the slope causing stability issues from soil and rock erosion and damaged concrete benching. The City will manage the design, permitting, bidding, and construction phase of the project.
  - Status: Staff efforts to create construction bidding documents are currently under way.

Future Projects, exact date to be determined, 2020-2021

- Encinal Canyon Road Drainage and Erosion Improvements
- Latigo Canyon Road Drainage and Erosion Improvements
- Corral Canyon Road Roadway/Retaining Wall Improvements
- Additional Disaster Projects as deemed necessary by the City

Construction

- Civic Center Way Improvements
  - This project will improve the horizontal and vertical sight distance, create additional space for motorists, pedestrians, bicyclist, and transit to travel along Civic Center Way between Malibu Canyon Road and Webb Way. On August 10, City Council awarded the construction contract to GMZ Engineering, Inc. The contractor has mobilized and started surveying, saw cutting, demolition and clearing and grubbing within phase 1 of the project. The contractor has also implemented the traffic control for phase 1 which includes the street closure on Civic Center Way between Vista Pacifica and the private driveway of 23901 Civic Center Way (Condos driveway). The closure will be in place between September 21 to December (weather permitting). During this time and if necessary, the closure will include access for emergency vehicles to utilize the street during emergency situations. Work hours will be Monday through Friday 7:00 AM to 4:00 PM with some work scheduled on Saturdays. Traffic control for this project will include lane closures and temporary street closures. The closure will also not prevent access to any adjacent side streets or private driveways. Additionally, the contractor will not be working during red flag warnings.
  - Project Schedule:
    - Duration: August 2020 through March 2021
    - Work Hours: Monday through Friday 7:00AM to 4:00PM, Saturdays 7:00AM to 4:00PM
    - Traffic Control: Alternating lane closures and partial street closures will be implemented during construction operations. Including temporarily closing Civic Center Way for approximately two months. During the closure public access will be maintained to all nearby streets and private driveways. Traffic control measures will include temporary signage, barricades, cones and flaggers.

- Electric Vehicle Chargers Upgrade
  - Monthly Updates:
    - “Rip and Replace” program and expansion within the Civic Center Way corridor.
      - City attorney is currently reviewing on the agreement for the contractor to install the new EV chargers.
- Guardrail Replacement Citywide (FEMA/CalOES Project)
  - Monthly Updates:
    - Funding has been obligated.
    - Contractor: Alcorn Fence Company.
    - Locations: Encinal Canyon (between Avenida Del Mar to Avenida De La Encinal), Birdview Avenue (between Westward Beach Road to Bluewater Road), Wildlife Road (between Zumirez Drive to Selfridge Street), Latigo Canyon (between PCH to Ocean View Drive) and Corral Canyon (PCH to Seabreeze Drive)
    - Schedule: Revised September 2019 to End of October 2020
    - Work Hours: Monday through Friday 6:00am to 3:00pm
    - Traffic Control: Alternating lane closures in both directions using flaggers and other traffic control devices.

# Public Works Commission Agenda Report

To: Chair Merrick and Members of the Public Works Commission

Prepared by: Travis Hart, Public Works Superintendent

Approved by: Rob DuBoux, Public Works Director/City Engineer

Date prepared: September 30, 2020 Meeting date: October 8, 2020

Subject: City of Malibu Trash Receptacles, including receptacles located on Pacific Coast Highway (PCH) near Zuma Beach

---

**RECOMMENDED ACTION:** Receive and file report on existing City trash receptacles, including receptacles located on PCH near Zuma Beach and possibly relocating existing receptacles located within current No Parking zones.

**DISCUSSION:** City will present the current locations of the trash receptacles within the city limits, specifically the receptacles located on PCH near Zuma Beach. Currently the City of Malibu owns and maintains sixty-four (64) trash receptacles within the city limits. This number does not include City owned parks such as Trancas Park, Bluffs Park, Equestrian Park and Las Flores Creek Park. The locations included are various PCH shoulders, Metro bus stops, Point Dume Neighborhood, Cross Creek Rd and Civic Center Way. The City's maintenance crews maintain all of the receptacles on a weekly basis and as needed. Additional service visits are typical depending on the season and location of the receptacle.

Additional trash receptacles are located throughout the City and are owned and maintained by other agencies such as LA County Beaches and Harbors, Mountains Recreation & Conservation Authority, CA State Parks and Caltrans. Many of which are located at County beaches, beach access points, hiking trails and various other locations throughout the city.

During our research it was determined that two (2) of the existing trash receptacles located along the westbound side of PCH in the Zuma Beach area are currently located within No

Parking zones. Thus, not allowing for these trash receptacles to be used as intended to help collect litter.

The Public Works Department proposes to relocate these two (2) trash receptacles to locations within the same PCH Zuma Beach area, however at locations where public parking along the westbound shoulder is currently allowed. The exact locations are a short distance from the original locations and as shown on the presentation.

ATTACHMENTS: None.
