

3.14 UTILITIES AND SERVICE SYSTEMS

INTRODUCTION

This section describes the utilities and service systems that would serve the proposed project. Specifically, this section includes an examination of water supply, wastewater service, solid waste, electrical, and natural gas services. Each subsection includes a description of existing facilities, service standards, and potential environmental impacts resulting from construction and operation of the proposed project. The following analysis is based on information provided by the Los Angeles County Sanitation Department, the Los Angeles County Department of Public Works (LACDPW), the City of Malibu General Plan, the Southern California Gas Company (SoCalGas), the Southern California Edison Company (SCE), Los Angeles County Waterworks District Number 29 (WWD), the La Paz EIR, the Regional Water Quality Control Board, and RMC Water and Environmental.
