Purpose of Tonight’s Meeting

• Point Dume Neighborhood Traffic Calming
  • Project background, goals
• Resident Safety Concerns
• Existing Conditions
• Fact Sheets
• Map of Proposed Improvements
• Discussion
• Next Steps
Comments Summary from 1st Community Meeting

- Excessive speeding, especially during morning times
- Roadway encroachments make road too narrow
- Inadequate pedestrian facilities
- On-Street parking encroaches into the traveled way
- Illegal golf cart use
Traffic Calming Overview

- Physical design and other measures put in place for the intention of *slowing down* or reducing *motor-vehicle traffic* and to improve safety for pedestrians and bicyclists.
- Typically consider traffic calming measures when speeds are *10 mph or more over posted speed limit*.

Traffic Calming Measures

- Enforcement
- Pavement Markings
- Radar Speed Trailer
- Education
- Speed Humps
- Speed feedback signs
- Remove Encroachments

Stop signs are not a Traffic Calming Device
Dume Drive

Existing Conditions
- Primary route in/out of neighborhood
- 30 mph posted speed limit
- Edge and centerline striping
- On-street parking permitted north of Bluewater Rd
- Walking path on east side

Public Input
- Excessive speeding
- Inadequate pedestrian facilities
- Illegal golf cart use

Recommendations
- Permanent speed radar signs
- Remove encroachments on public ROW
- Stripe crosswalk at Dume/Heathercliff
Fernhill Drive

Existing Conditions
- Secondary route in/out of neighborhood, elementary school
- 25 mph posted speed limit
- Centerline striping
- On-street parking permitted at multiple locations

Public Input
- Excessive speeding
- On-street parking encroaches into traveled way
- Inadequate pedestrian facilities

Recommendations
- Permanent speed radar signs
- Remove encroachments on public ROW
- Enforcement
- Edge Striping
Grayfox Street

Existing Conditions
- Primary route to elementary school
- 25 mph posted speed limit
- Centerline striping w/o Fernhill
- On-street parking permitted at multiple locations
- Steep grade
- Speed humps recently installed east of Fernhill

Public Input
- Excessive speeding during school times
- Illegal golf cart use

Recommendations
- Permanent speed radar sign e/o Grasswood
- Enforcement
Grasswood Avenue

**Existing Conditions**
- N/S roadway connecting Grayfox to Cliffside
- On-street parking permitted on north section
- No striping
- Paved road width 23-25 feet
- Multiple ROW encroachments

**Public Input**
- On-street parking encroaches into traveled way

**Recommendations**
- Remove encroachments on public ROW and install edge and centerline striping
Portshead Road/Boniface Drive

Existing Conditions
- 25 mph posted speed limit
- Parking permitted
- Centerline striping on Portshead near PCH
- Pedestrian path on north Portshead
- Steep slopes (> 6%)

Public Input
- Excessive speeding during school times
- Would like speed humps installed

Recommendations
- Install speed humps along Portshead
  - Slopes are too steep for speed humps on Boniface
Bluewater Road

Existing Conditions

• E/W roadway connecting Dume Dr and Birdview Ave
• 30 mph posted speed limit
• On-street parking permitted at some locations

Public Input

• Concerned about speeding
• Opposed to speed humps
• Illegal golf cart use

Recommendations

• Permanent speed radar sign
• Decrease posted speed limit to 25 mph
• Remove encroachments on public ROW
Cliffside Drive

Existing Conditions
- E/W roadway connecting to Birdview Ave on the west
- Raised median west of Dume Dr
- Centerline striping
- Paved road width 22-24 feet
- On-street parking prohibited

Public Input
- Concerned about emergency response time at Dume/Cliffside intersection
- Roadway encroachments make road too narrow
- Would like sidewalk design enhanced

Recommendations
- Decrease posted speed limit to 25 mph
- Remove encroachments on public ROW
Wildlife Road

Existing Conditions

- On-street parking permitted
- Centerline striping on northern section
- Paved road width 22-24 feet
- Speed humps recently installed east of Fernhill

Public Input

- Excessive speeding

Recommendations

- Decrease posted speed limit to 25mph (northern section)
Next Steps

• Gather community input
• Update/finalize recommendations for neighborhood
• Prepare Final Traffic Management Plan
• Implementation
Thank you for attending tonight’s meeting!
