PCH Trancas Right Turn Improvements
PCH Trancas Right Turn Turn Improvements

Overview

- The Pacific Coast Highway and Trancas Canyon Road Improvements project consists of installing a new dedicated westbound right turn lane.
- The proposed right turn lane will be approximately 430 feet and will accommodate right turns onto Trancas Canyon Road as well as traffic entering into the Trancas Market shopping center.
- The project will be funded by Measure R Highway Operational improvements.
PCH Trancas Right Turn Improvements

Purpose and Need

• Access - to the Trancas Market Shopping Center and Trancas Canyon Road.
• Collaboration - City is working directly with Caltrans to make this project happen. (Separate CDP Project from the Bridge)
• Safety - the right turn lane provides space for vehicles to decelerate while maintaining two lanes of thru traffic.
• Past History - Community supported request.
PCH Trancas Right Turn Improvements

Design Components

• Northbound right turn pocket of +430 feet.
• South leg median removal and install paddles for separation.
• Relocation crosswalk to opposite side of intersection, and provide sidewalk and curb ramp improvements for pedestrians including utility relocation.
• Traffic signal modification to accommodate these improvements.
• Minor modifications on Trancas Canyon Road to accommodate bus movements.
• All work will be within the existing Right-of-Way.
