GENERAL CONSTRUCTION ACTIVITIES STORMWATER PERMIT (GCASP) REQUIREMENTS

All development projects which include more than 1 acre of disturbed land are required to be covered under the General Construction Stormwater Activities Permit. To obtain coverage, applicants must:

- a. File a Notice of Intent (NOI) with the State Water Resources Control Board (SWRCB), and
- b. Prepare a Storm Water Pollution Prevention Plan, prepared according to state standards.

When the GCASP documents have been submitted and approved, the SWRCB will assign a Waste Discharge Identification Number (WDID) to the project. The NOI application, instructions, and other information are available on the SWRCB website at <http://www.swrcb.ca.gov/stormwtr/construction.html>. Scroll down and click on the link titled, "Construction General Permit and Forms."
