## Request for Proposals for Interim Shelter Beds

### ADDENDUM 1

**How can we run a shelter/project outside of the city limits? Has the City of Malibu already negotiated with a neighboring city who will allow this?**

The interim shelter beds are to be reserved at an existing facility within the control of the service provider with capacity to accommodate the request with support from the Malibu Homeless Outreach Team and the Malibu/Lost Hills Sheriff's Department to ensure the public safety of the host community and the individuals being placed within the facility.

The City of Malibu has not been in talks with any neighboring city to create new, or share existing, interim housing. This request is directed toward service providers that already have interim shelter resources.

**Do the bed units need to be at a shelter, or can they be located at a motel or motels?**

The bed units can be at motels; however, please keep in mind that the bed units must be readily accessible to homeless individuals and families from Malibu during normal working hours (Monday through Friday, from 8:00 AM to 5:00 PM) and non-working hours (evenings, weekends).

**Do the bed units need to be located all at one shelter, or may they be in multiple shelters?**

The bed units can be in multiple shelters; however, please keep in mind that individualized client support and collaboration with the Malibu Homeless Outreach Team and the Malibu/Lost Hills Sheriff's Department is required.
