Join Malibu's Virtual Workshop to Learn About the City's New Residential Organic Waste Recycling Program and Get a Free Kitchen Scraps Caddy

(Malibu, CA) – The City of Malibu invites all Malibu community members to join a virtual workshop to learn about the importance of, and be able to successfully participate in, the City's Organic Waste Recycling Program, on Wednesday, October 26 at 7:00 PM.

"Our Organic Waste Recycling Program is an important way that Malibu can fulfill its commitment as a community to be part of the efforts to address climate change and protect the environment," said Mayor Paul Grisanti. "I hope every household in Malibu will join us for the training and be part of the recycling effort."

The virtual workshop on October 26 is meant to help residents properly separate their organic waste and learn about the importance of organics recycling. Find the Zoom meeting link at www.MalibuCity.org/OrganicsRecyclingTraining.

SB 1383 Local Assistance Grant Program

Malibu has been awarded state grant funds to help implement its Organic Waste Recycling Program. Attendees will receive a free kitchen scraps collection caddy (limit one per household). The 1.9 gallon, dishwasher-safe caddies are easy to fill, carry, empty, and clean, offering a convenient way to collect food scraps to be recycled. Those who complete the workshop can contact Environmental Programs staff at 310-456-2489 to arrange to pick up their caddy at Malibu City Hall. Please be prepared to show identification with a Malibu address and proof of attendance.

The City has also created a free Zero Waste Guide to help residents learn how to sort their food scraps based on their hauler's requirements. The guide is available at: www.MalibuCity.org/HomeZeroWasteGuide.

Each waste hauler serving Malibu has slightly different requirements. Malibu Garbage Disposal District customers can learn more at www.CleanLA.com/OrganicWaste and other City residents can learn more at www.MalibuCity.org/organics.
