Re: LCP Amendment No. LCP-4-MAL-21-0048-1-Part A (Wireless Communications Facilities) and
LCP Amendment No. LCP-4-MAL-21-0049-1-Part B (Sign Regulations)

Dear Mr. Mollica:

Our review of your recent Local Coastal Program Amendment submittal of additional information (received October 31, 2022) indicates that the amendment submittal is in proper order and legally adequate to comply with the submittal requirements of the Coastal Act Section 30510(b). Neither parts of the amendment have been scheduled for a hearing date at this time. The 90-working day statutory time limit for Commission action on the amendment submittal will end on March 29, 2023. We will request that our Commission extend the 90-working day time limit at the February 2023 Commission hearing to allow our staff adequate time to review and analyze each part of the amendment request and to allow greater scheduling flexibility.

Though the submittal has been determined by the Executive Director to be complete for the purposes of processing, please note the following item will be required prior to the Commission hearings, in order to process the LCP amendment in accordance with the provisions of the Coastal Act and with Administrative Code Sections 13551 through 13553:

Public Noticing. Please be advised that the City will be required to publish a meeting notification in at least one major newspaper that is circulated in the area that is affected by the subject LCP Amendment, in lieu of individual noticing requirements. We will send you the applicable notice for publishing prior to the scheduled hearing.

If you have any questions regarding the filing or review of the proposed amendment, please contact me at denise.gonzalez@coastal.ca.gov.

Sincerely,

DocuSigned by:
