LEGO®

ENGINEERING WORKSHOPS

SATURDAY NOVEMBER 21 | $10 PER WORKSHOP
MALIBU BLUFFS PARK, MICHAEL LANDON CENTER

AGES 6 - 11 | 12:30 - 2 PM

Engineers will explore creativity and problem solving through hands on projects. Using LEGO® parts, participants will design and build motorized machines, inventive structures, and imaginative creations to test and share with others. Instructed by Willow Kids.

AGES 12 - 17 | 2:45 - 3:45 PM

This workshop introduces teens to key engineering concepts through engaging, hands on building challenges. Participants will explore ideas like motion, balance, and buoyancy while designing and testing their own creations. Through problem solving and experimentation, teens build critical thinking skills, confidence, and creativity in a fun, approachable environment. Instructed by Willow Kids.
