PUBLIC HEARING AND  
BOARD MEETING**

Thursday,  
November 5, 2009  
9:00 a.m.

Metropolitan Water District of Southern California  
700 North Alameda Street  
Los Angeles, California

**Proposed Amendment to the Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties to Prohibit On-Site Wastewater Disposal Systems in the Civic Center Area of the City of Malibu.**

NOTICE IS HEREBY GIVEN that the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will hold a public hearing on a proposed amendment to the Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan). The proposed amendment will prohibit on-site wastewater disposal systems in the Civic Center area of the City of Malibu. Following the hearing, the Regional Board may vote on 1) a tentative Resolution to adopt the proposed amendment to the Basin Plan and 2) substitute environmental documents to comply with the California Environmental Quality Act (CEQA).

Public Comment: Interested individuals may submit written or oral comments on the proposed amendment. Written comments must be received at the address below no later than 2:00pm on October 8, 2009.

California Regional Water  
Quality Control Board  
Attn: Dr. Rebecca Chou  
320 West 4th Street, Suite 200  
Los Angeles, California 90013

Oral comments will be accepted during the public hearing. To allow all interested individuals an opportunity to comment, a time limit of 3-5 minutes per speaker may be imposed.

Additional Information: The proposed amendment and related documents can be viewed by visiting the following web site or Regional Board's Office.

[www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)

William T. Fujioka  
Chief Executive Officer  
County of Los Angeles  
500 W. Temple  
Los Angeles, CA 90012

Subject: **Notice of Public Hearing for a proposed amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan)*, to prohibit on-site wastewater disposal systems in the Civic Center area of the City of Malibu.**

Dear Mr. Fujioka:

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will consider a proposed amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan)*, to prohibit on-site wastewater disposal systems (OWDSs) in the Malibu Civic Center area, including a portion of unincorporated Los Angeles County (upper Winter Canyon and a portion of Pepperdine University). Additional regulations or policies, consistent with the general purpose of the proposed amendment and complementary to the proposed prohibition, may be developed at the hearing as a logical outgrowth of discussions. The Regional Board may act on the proposed amendment after hearing staff's presentation and public comments.

The public hearing is scheduled to occur during a public meeting of the Regional Board on Thursday, November 5, 2009 at 9:00 a.m. in the Board Room of the Metropolitan Water District of Southern California, 700 N. Alameda Street, Los Angeles, California. At the public hearing, the public will have opportunity to comment on the proposed prohibition. All exhibits, including charts, graphs and other testimony presented at the public hearing, must be left with the Regional Board for inclusion in the Administrative Record. Please note that the Regional Board may impose time limits on oral testimony at the public hearing.

Enclosed are hard copies of our notice of public hearing, a tentative resolution with the proposed amendment to the *Basin Plan*, a technical staff report (including five technical memoranda), and an environmental staff report (containing substitute environmental documentation, including a California Environmental Quality Act analysis). These documents also may be downloaded at [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public\\_Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public_Hearing-Malibu/index.shtml). Furthermore, please note that we transmitted a hard copy of the prohibition documents to your staff, Mr. John Edmisten, and electronically notified twelve other staff at the Department of Public Works and County Waterworks District No. 29, Malibu. As Mr. Edmisten

Mr. Thorsen -

Thank you for your comments, dated October 8, 2009, on our proposed amendment to the Basin Plan for a prohibition on OWDSs in the Malibu Civic Center area. We have revised our Environmental Staff Report, containing substitute environmental documentation (CEQA), in a draft dated October 21, 2009, and have posted this new draft on our Web site at

[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/FINAL%20DOCS/ESR%20-%20FINAL.pdf](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/FINAL%20DOCS/ESR%20-%20FINAL.pdf). Also, we have prepared responses to your CEQA comments, summarized in the attached CEQA matrix, which is also posted on our Web site.

Staff is preparing additional matrices with responses to comments, and these matrices will be posted throughout this week. Also, we have just posted a new draft of our Resolution, dated October 27, 2009, with changes marked on page 5, paragraphs #3 and #4. This new draft is also attached to this e-mail.

As previously advised, our hearing is scheduled for November 5, 2009, during our Board meeting that starts at 9 a.m. Please don't hesitate to contact us should you have questions.

Thank you.

  - Reasons for the Prohibition
  - Structure of the Proposed Prohibition
    - Who is Subject?
    - How Were Boundaries Drawn?
- City of Malibu – share comments
- Public – provide comments

## State and Regional Water Quality Control Boards

## Regulating Discharges of Waste (Solid and Liquid)

### Mission – to Protect Water Quality for Present and Future Generations

- Prevent pollution: by regulating wastewater discharges – waste discharge requirements (WDRs)
  - Surface waters (aka NPDES\* permits)
  - Ground waters (including landfills)
- Oversee clean-ups
- Rule-making:
  - Set water quality objectives (*Basin Plan*)
  - Specify waste loads for impaired waters (TMDLs\*\*)
  - Issue prohibitions

\*National Pollutant Discharge Elimination System \*\*Total Maximum Daily Load

### Reasons for the Prohibition

- Polluted groundwater (Tech Memo #2)
- Polluted beaches (Tech Memo #3)
- Polluted lagoon (Tech Memo #4)
- Compliance records of permitted dischargers (Tech Memo #1)
- Reliance on hauling raw sewage (Tech Memo #5)

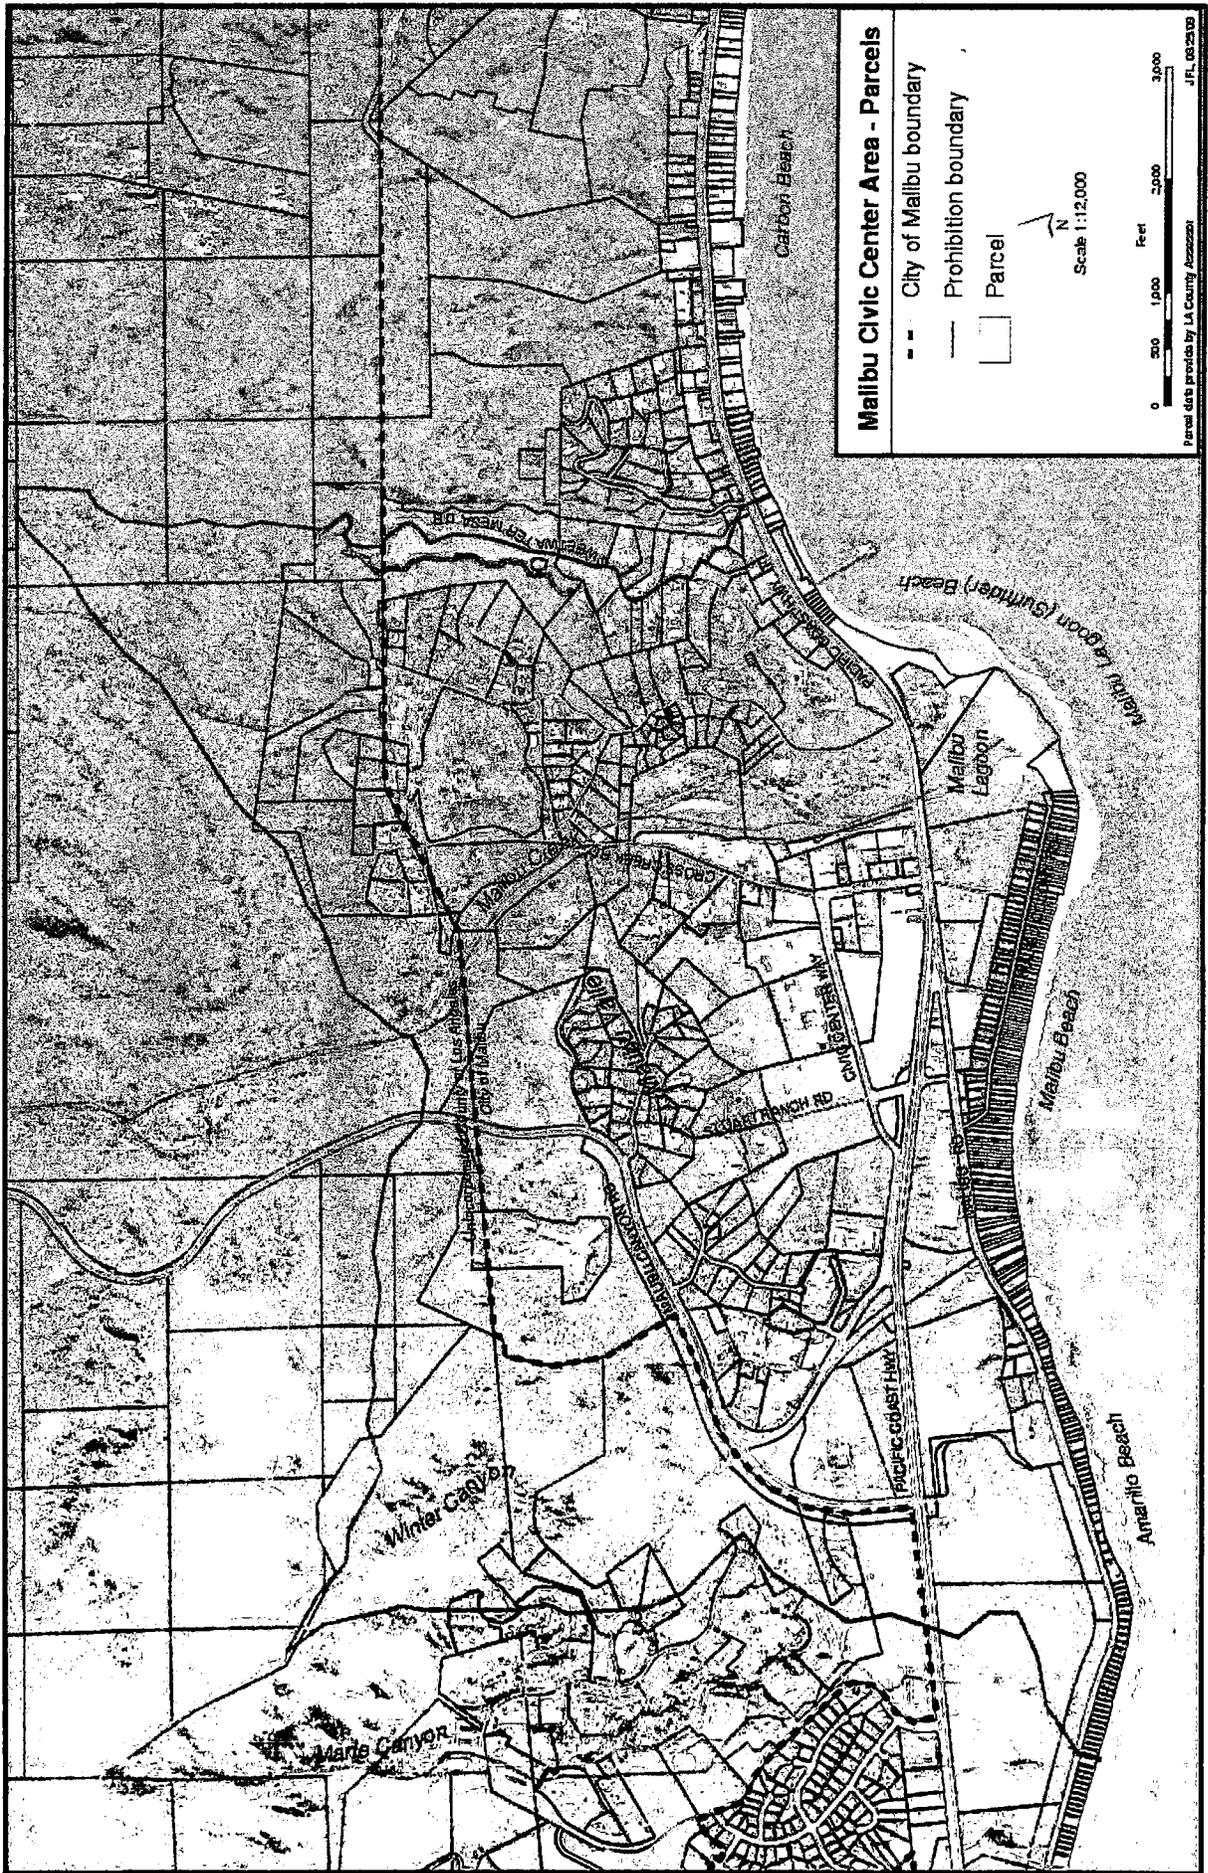

### Compliance Record (Tech Memo #1)

- 20 permitted dischargers have poor records of compliance with Regional Board Orders.
- The compliance status for small commercial and residential dischargers under City's oversight has not been analyzed.

### Hauling Practices (Tech Memo #5)

- Land uses generate more wastewater than can be transmitted into the subsurface.
- Increasing reliance on hauling raw sewage off-site (e.g. Carson)
- 7% of raw sewage is hauled off-site from a subset of dischargers.
- >20% increase in raw sewage (2004-2008)
- >29% increase in hauling (2004-2008)

## Who Would Be Affected?

- Applies to all discharges in the Malibu Civic Center area:
  - Commercial and industrial facilities
  - Public facilities
  - Residential properties
- Applies to ALL discharge systems (passive convention septics to advance plants)

## When Would You Be Affected?

See handout for details

- New discharges: immediately (Nov 5, 2009)
  - No new projects\*
- Existing discharges: November 5, 2014
  - Repairs and upgrades allowed, provided they comply with the deadline to cease discharge by 2014
  - No expansions (projects that will increase wastewater flows allowed)
- \*Discharges in 'Pipeline'
  - Residential applicants
    - Nov 5, 2009 if permitting has not been completed
    - Nov 5, 2014 if permitting has been completed
  - Commercial applicants
    - Nov 5, 2009 if CA RWQCB has not deemed your RoWD (Report of Waste Discharge) adequate and complete
    - Nov 5, 2014 if CA RWQCB has deemed your RoWD adequate and complete

Who?	Subject to Prohibition?	Deadline to cease discharge?	Comment/Condition(s)
New Discharger:	Residential	Immediate	No new discharges after Nov 5, 2009.
	Commercial	Immediate	No new discharges after Nov 5, 2009.
Existing Discharger:	Residential	2014	Single-family homes must currently be in compliance with City's Ordinance 321 (re required Operating Permits).
	Commercial	2014	Commercial facilities without a WDR must immediately submit a Report of Waste Discharge (RoWD).
Existing Discharger with a repair or upgrade project:	Residential	2014	Repair or upgrade (at existing flow level) subject to approval by City. All upgrades must comply with City's Local Coastal Program (LCP) and provide a minimum of secondary treatment and disinfection.
	Commercial	2014	Repair or upgrade (at existing flow level) subject to approval by City and CA RWQCB.
Existing Discharger with an expansion project:	Residential	Not relevant, as a project that would increase wastewater flow is not allowed.	Projects that will increase wastewater flows not allowed after Nov 5, 2009. <i>(The City is expected to propose a revision, to allow for increased residential flows to 2014, under limited conditions - this has not been approved by the CA RWQCB.)</i>
	Commercial	Not relevant, as a project that would increase wastewater flow is not allowed.	No expansion to be allowed.
"In pipeline" Discharger, who is already in City's land development permitting process on or before Nov 5, 2009:	Residential	2009	<i>(The City is expected to propose an exemption, to allow interim discharge to 2014 for those applicants who paid all application fees and substantially fulfilled permit requirements by Nov 5, 2009 - this has not been approved by the CA RWQCB.)</i>
	Commercial	2009	If Discharger has completed an RoWD that has been deemed adequate by CA RWQCB staff by Nov 5, 2009, the CA RWQCB will proceed to process a WDR for interim discharge to 2014.

## Next Steps

- Oct 8<sup>th</sup> at 2 pm – deadline for receipt (at CA RWQCB – LA) of written comments:  
 Dr. Rebecca Chou, CA RWQCB-LA  
 320 W 4<sup>th</sup> St, LA, CA 90013
- Oct 27<sup>th</sup> – Target for staff to respond to comments (check Web page)

**City of Malibu Water Consumption**

Figure 1 below illustrates the relationship between potable water use in the City of Malibu and population increase from the late 1980s to the present. The linearization of the data reveals a trend of increasing water demand. Analysis of endpoints from the best fit line of this data shows that between 1989 and 2008 there has been a 49 percent increase in potable water consumption. Due to the yearly fluctuations in potable water consumption, using the best fit line for this calculation provides a more accurate perspective of the increasing water demand in the City of Malibu. The population of the City of Malibu has increased 31 percent from 10,479 people in 1990 to 13,700 people in 2008. Potable water consumption is increasing at a much greater rate than the population (49 percent versus 31 percent), indicating the per capita potable water consumption rate is not a static value, but is increasing as well.

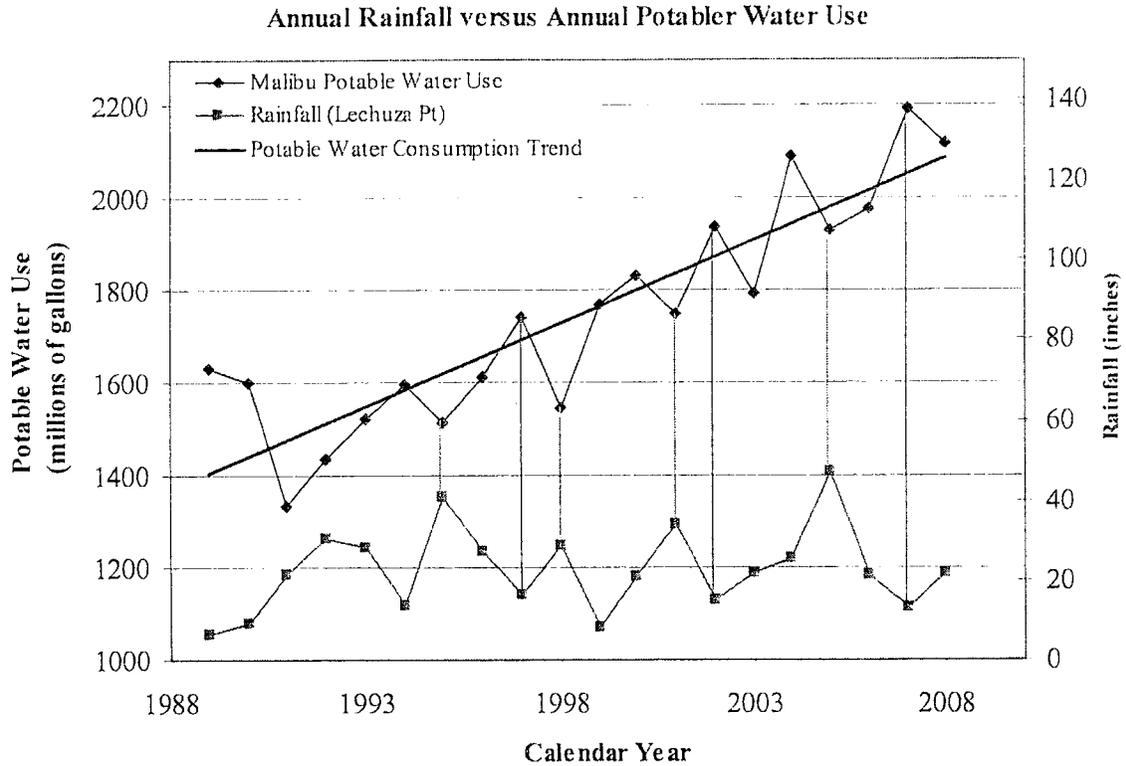

Figure 1. Potable water consumption in the City of Malibu plotted with population increases over the past two decades. Annual potable water consumption is increasing at a greater rate than population.

To analyze the large yearly fluctuations in potable water consumption, this data was compared with annual rainfall data gathered from the Lechuza Point/Fire Station 72 rain

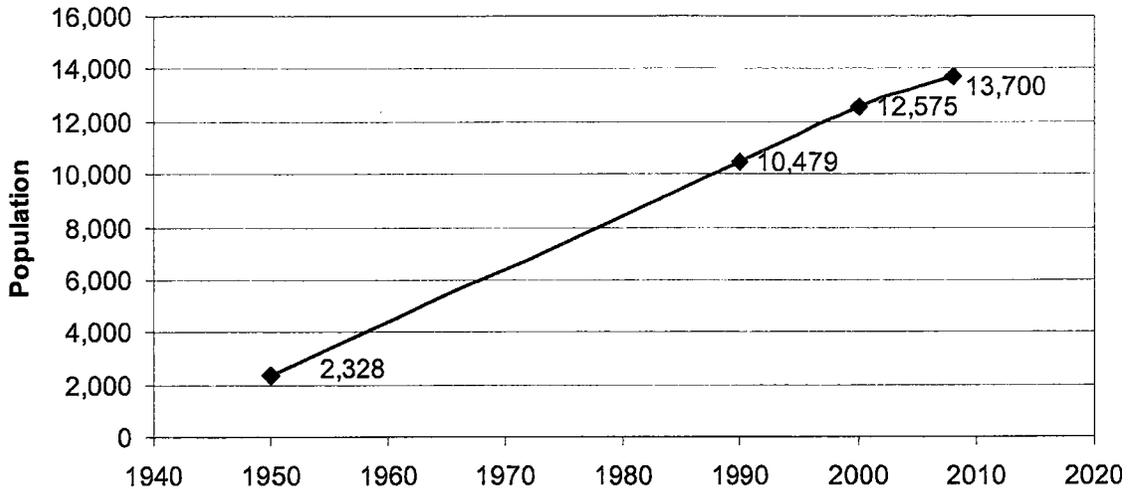

gauge located in Malibu. Historical rainfall data by month from the early 1980s up to present day was provided to the Regional Board by the Los Angeles County Department of Public Works. This is shown in figure 2.

Figure 2. Annual rainfall data (by calendar year) compared with annual potable water use in the City of Malibu.

Looking at the relationship between potable water use in the City of Malibu and the amount of rainfall recorded during the corresponding year shows a strong inverse relationship. The red and green vertical lines emphasize years that clearly exhibit this behavior. Assuming water consumption per capita increases at a fairly constant rate despite weather patterns, the large seasonal fluctuations in annual water consumption seen in the City of Malibu can be attributed to potable water use for irrigation purposes.

**City of Malibu Population Growth**

The population trend of the City of Malibu has increased as shown in the above figure. According to the Malibu Coastal Vision Report titled "Malibu Yesterday, Today, and Tomorrow" (page 9), the population of Malibu was 2,328 in 1950. The 2000 Census indicates that the population in 1990 and 2000 was 10,479 and 12,275, respectively. Updated information presented in the report titled "Profile of City of Malibu" funded by the Southern California Association of Governments and dated May 2009, indicated in page one that the population in 2008 was 13,700. Based in the above information, the population grew at an average rate of 3.83% per year from 1950 to 1990, 1.84% per year from 1990 to 2000, and 1.08% per year from 2000 to 2008.

Regional Board staff estimates the population in 2009 at 1,842 for the proposed prohibition area. Based on the County of Los Angeles Assessor's data, there are 391 single family houses. The average number of bedrooms per house is four and assuming one person per bedroom, the population is 1,564 people for the houses. In addition, there are four multifamily complexes that have a total of 191 units with an estimated of 278 bedrooms. Again, assuming one person per bedroom, this indicates 278 additional people.

The estimated population does not include daytime and evening workers who are employed in the Malibu Civic Center area. Nor does it include daytime and evening visitors, who enjoy the beaches and patronize the businesses and public facilities. Based on Beach Activity Report prepared by Los Angeles County Fire Department, Lifeguard Division, Malibu Beach visitors have increased from 233,500 in August 1999 to 355,000 in August 2006.

*Proposed Prohibition*  
**On-Site Wastewater Disposal Systems  
(Septics)  
Malibu Civic Center Area**

CA Regional Water Quality Control Board – Los Angeles Region  
Workshop – September 1, 2009 (Pepperdine)

## Agenda

- Introductory Remarks
- Proposed Prohibition
- Reasons for the Prohibition:
  - Polluted lagoon
  - Polluted beaches
  - Polluted groundwater
  - Compliance records of permitted dischargers
  - Reliance on hauling raw sewage
- Alternatives (Program)
- Economics of possible compliance projects
- Public – comment and questions

### Mission – to Protect Water Quality for Present and Future Generations

- Prevent pollution: by regulating wastewater discharges – waste discharge requirements (WDRs)
  - Surface waters (aka NPDES\* permits)
  - Ground waters (including landfills)
- Oversee clean-ups
- Rule-making:
  - Set water quality objectives (*Basin Plan*)
  - Specify waste loads for impaired waters (TMDLs\*\*)
  - Issue prohibitions

\*National Pollutant Discharge Elimination System \*\*Total Maximum Daily Load

### Proposed Prohibition

- Goal – to remedy water pollution:
  - Beaches
  - Malibu Lagoon
  - Groundwater
- Regulatory action – to prohibit discharges from on-site wastewater disposal systems (OWDSs)
  - Conventional septic
  - Others (advanced plants, package plants)

### Proposed Prohibition

- When?
  - New discharges: immediately (Nov 5, 2009)
  - Existing discharges: five years to cease discharge
- Where? Applies to all discharges located in the Malibu Civic Center area:
  - Commercial and industrial facilities
  - Public facilities
  - Residential properties

### Reasons for the Prohibition

- Polluted lagoon (Tech Memo #4)
- Polluted beaches (Tech Memo #3)
- Polluted groundwater (Tech Memo #2)
- Compliance records of permitted dischargers (Tech Memo #1)
- Reliance on hauling raw sewage (Tech Memo #5)

### Malibu Lagoon

- Nutrient (nitrogen and phosphorus) loads accelerate eutrophication. (Over stimulates algae, which depletes oxygen dissolved in water.)
- Eutrophication: an increase in nutrients in an ecosystem, to an extent that increases in the primary productivity of the ecosystem. Depending on the degree of eutrophication, subsequent negative environmental effects such as anoxia and severe reductions in water quality, fish, and other animal populations may occur.

### Malibu Lagoon (Tech Memo #4)

- Quantify nitrogen loads from OWDSs
- Compiled an inventory of discharges
  - 268,000 gallons per day
- Calculated nitrogen loading rates
- Evaluated groundwater flow regime
  - Amount flowing to lagoon (versus coast)
  - Attenuation (decay) between the point of release and the water table.

## Malibu Lagoon (Tech Memo #4)

- 6 lb/day – restoration target\* (load allocated for OWDSs) \*Total Maximum Daily Load (TMDL), US EPA, 2003
- 29 – 36 lb/day nitrogen – current load (Tech Memo #4 findings)
- 17 to 32 lb/day – estimates by third parties
- Conclusion – Nitrogen released from OWDSs impairs aquatic life

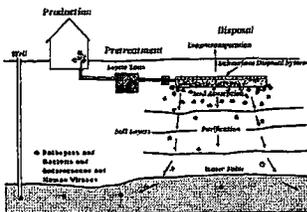

## Technical Memo #3 Pathogens in Wastewaters that are in Hydraulic Connection with Beaches are a Significant Source of Impairment for Water Contact Recreation

presenting evidence in support of an amendment to the Water Quality Control Plan for the Council Beaches of Los Angeles and Ventura Counties to incorporate a prohibition on on-site wastewater disposal systems in the Malibu Civic Center Area

CA Regional Water Quality Control Board – LA  
Elizabeth Erickson, P. G., Engineering Geologist  
September 1, 2009  
erickson@emprtds.ca.gov 213 620 2264

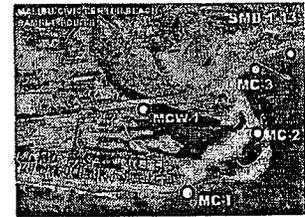

## Human Pathogens

- Illness is transmitted by human waste, unless it is cleaned in the soil.
- If the waste is not cleaned, *Enterococcus* (a bacteria found in the human intestine) is present, showing human waste has fouled wells and beaches.
- More *Enterococcus* on a beach means more swimmers will swallow human pathogens and can become ill.

## Questions answered to assess risk of Illness due to septic bacteria

- #1 Do the waters in the Civic Center present a health risk?
- #2 What is the best approach to quantify the level of pathogens released from OWDSs that migrate to the beaches?
- #3 Is there a pathway from OWDSs in the Civic Center area to the beaches?
- #4 Are OWDSs responsible for persistent failures to meet the water contact standard on Civic Center area beaches, as opposed to birds and other non-human sources?

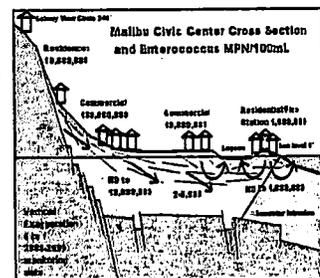

## #1 Do the waters in the Civic Center cause a human health risk?

- Yes
- Civic Center beaches, groundwater and surface water have more *Enterococcus* than water quality standards, showing the public is not protected.
- The public is protected on other beaches

	Failure to meet in Summer 2007	Ent	Mean Ent	Days
Surfrider	9	8	62	
SM Canyon	8	0	10	
Venice	0	0	0	
Doakweiler	0	0	1	
Colony	0	13	14	
Will Rogers	3	3	3	
SM Strand	0	0	0	
Hermosa	1	1	1	
Malibu Pier	3	16	19	
SM Pier	16	13	236	
Redondo Pier	2	2	2	
Hermosa Pier	1	1	1	

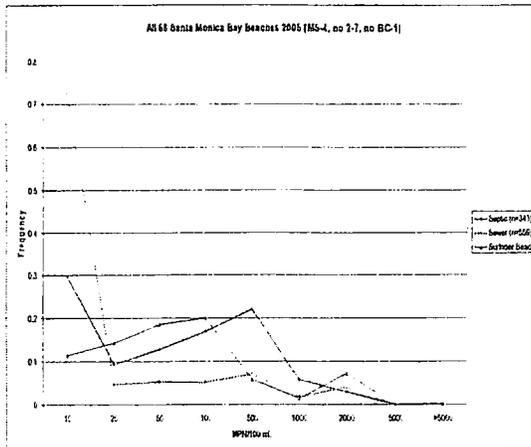

## #3 Is there a pathway from OWDSs in the Civic Center area to the beaches?

- Yes
- *Enterococcus* was found along the path through groundwater from the leachfields to discharge into the ocean.
- Recent studies on other beaches also document groundwater discharge and *enterococcus*/virus transport.

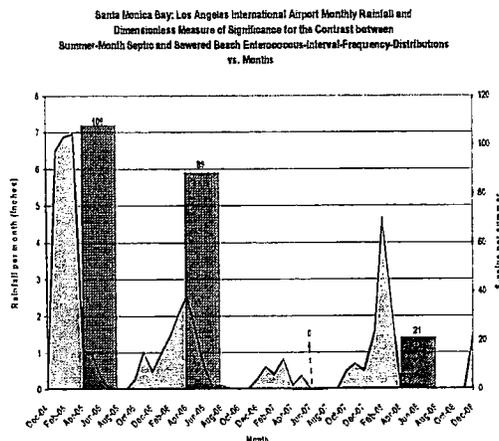

## #2 What is the best approach to quantify pathogens released from OWDSs that migrate to the beach?

- Compare many septic and sewer beaches
- Issue not resolved by 22 Civic Center studies
- Examine 8000 summer samples on 58 Santa Monica Bay beaches
  - Beaches with septic systems have more Enterococcus bacteria than sewer beaches
  - Beaches with similar characteristics (birds, size, number of visitors) have, on average, less bacteria than found on Civic Center beaches
  - Summer beaches have consistent bacteria characteristics

## #4 Are OWDSs responsible for persistent failures to meet water contact standards in the Civic Center area beaches, as opposed to birds and other non-human sources?

- Yes
- Stormwater/urban sources (largest in winter) are present but small in summer.
- Natural sources present and small.
- A source of groundwater with enterococcus is present on septic beaches, especially after wet winters, and missing on sewer beaches.

### Conclusions

- Discharge to soil from septic systems can safely remove bacteria, but not all bacteria are removed in the Civic Center area.
- Natural and stormwater bacteria appear on the beach in the winter. Bacteria from septic tanks are found in the summer.
- The septic bacteria move to the beach via groundwater, and increase the human health risk.

### Tech Memo #2 Pathogens and Nitrogen in Wastewaters Impair Underlying Groundwater as a Potential Source of Drinking Water

Rebecca Chou, Ph.D., P.E.  
Chief of Groundwater Permitting Unit  
Regional Water Quality Control Board  
Los Angeles Region

### Groundwater Beneficial Uses

- Located in the Malibu Valley Groundwater Basin
- Potential Beneficial Uses include:
  - ❖ municipal and domestic supply (drinking water use)
  - ❖ industrial service supply
- Existing Beneficial Uses include:
  - ❖ agricultural supply

### METHODS AND PROCEDURES

- Collect and review data from 47 groundwater monitoring wells in the study area
- Analyze data for fecal coliform, total coliform, total nitrogen (nitrate + nitrite), total nitrogen (ammonia + nitrate + nitrite)
- Groundwater quality failed to meet drinking water standard - Maximum Contaminant Levels (MCL)

### Summary of 671 Groundwater Samples from 47 Wells

	Fecal Coliform	Total Coliform	Nitrate + Nitrite	Ammonia+ Nitrate+Nitrite
MCL	0	0	10	10
Concentration Range	0 - 140,000 MPN/100m	0 - 16,000,000 MPN/100	0 - 120 mg/l	0 - 120 mg/l
Total Samples Analyzed	671	681	671	671
# Samples failed to meet MCL	360	480	100	163
% Samples failed to meet MCL	54%	72%	15%	24%

### Summary of Groundwater Quality by Wells

	Fecal Coliform	Total Coliform	Nitrate + Nitrite	Ammonia+ Nitrate+Nitrite
Total number of wells	47	47	47	47
Number of wells failed to meet MCL	44	47	14	24
% wells failed to meet MCL	94%	100%	30%	51%

## Tech Memo #2 CONCLUSION

- Pathogens and nitrogen in wastewater released from OWDSs impair underlying groundwater as a potential source of drinking water

## Tech Memo #1 Dischargers Have Poor Records of Compliance with Regional Board Order

Rebecca Chou, Ph.D., P.E.  
Chief of Groundwater Permitting Unit  
Regional Water Quality Control Board  
Los Angeles Region

## Notice of Violation (NOV) to 20 Permitted Facilities

## Tech Memo #1 Conclusion

- 20 Permitted dischargers have poor records of Compliance with Regional Board Orders
- The compliance Status for small commercial and residential dischargers under City's oversight has not been analyzed

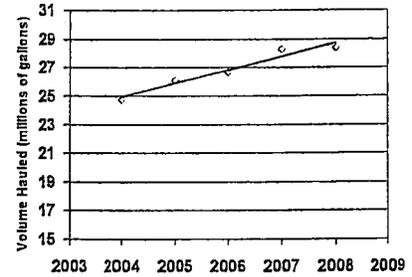

## Hauling Practices (Tech Memo #5)

- Land uses generate more wastewater than can be transmitted into the subsurface.
- Increasing reliance on hauling raw sewage off-site:
  - Carson (Joint Water Pollution Control Plant)

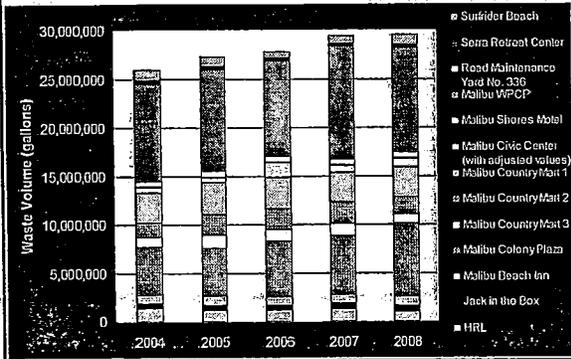

## Waste Flow – Select Dischargers

- > 20% increase from 2004 to 2008
- Increasing at a rate of about 5% per year

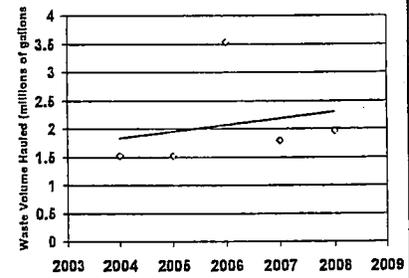

## Waste Flow – Select Dischargers

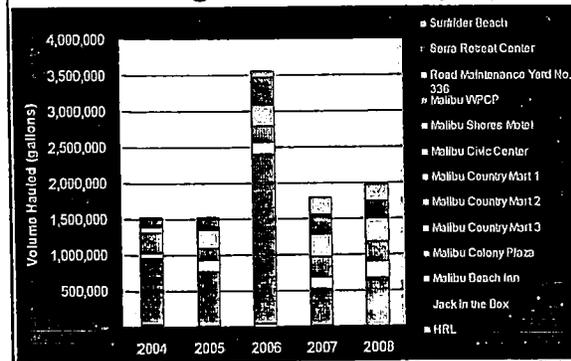

## Hauling – Select Dischargers

- About 7% of raw sewage is hauled off site.
- > 29% increase from 2004 to 2008
- increasing at a rate of about 7% per year

## Hauling – Select Dischargers

## Hauling – Carbon Footprint Estimate

Tanker trucks released 252 tons CO<sub>2</sub> in 2008.

- Diesel engines emit 22.2 lbs of carbon dioxide per gallon of fuel\*
- Roundtrips range from 64 to 178 miles
  - Carson (most discharged to LACSD Joint Water Pollution Control Plant)
  - Van Nuys (small amount discharged to City of LA Tillman Plant)

Pumping Contractor	Round trip (miles)	MPG	Frequency (days/week)	# Trucks	Tons CO <sub>2</sub> per year
Adri Malibu Pumping	67	6	3	1	19
Ely Jrs. Pumping	178	6	5	2	171
McLennan Pumping	64	6	5	2	62
					252

\*EPA Emission Facts: Average Carbon Dioxide Emissions Resulting from Gasoline and Diesel Fuel: <http://www.epa.gov/oms/chem/14/F04R01.htm>

## Alternatives to the Prohibition

- Continued hauling – *not evaluated*
- Initiative by local entity – *not recommended*
  - City
  - Existing or newly formed utility
  - Existing or newly formed water authority
  - Public benefit (non-profit) corporation
  - Privately-run organizations (for-profit corporations, partnerships, proprietors)
- No action – *not recommended*

## Potential Methods of Compliance

- Conceptual projects to comply with 5-year schedule in prohibition by Nov 2014.
  - Centralized, integrated water resources facilities
  - Interceptor sewers
    - Export to Castlemare (Hyperion sewer)
    - Export to Tapia
  - Decentralized facilities
- All sized at 300,000 gallons per day (existing flows)

## Estimated Capital Costs of Conceptual Projects

Component	Centralized, Integrated Facilities	Interceptor Sewer to a:		Decentralized Facilities
		Hyperion Connection	Tapia Connection	
Local Sewer System	\$7,800,000	\$7,800,000	\$7,800,000	\$7,800,000
Interceptor Sewer	--	\$49,000,000	\$72,500,000	--
Treatment Plant(s)	\$5,900,000	--	--	\$5,800,000
Recycled Distribution System	\$3,000,000	0	0	\$3,000,000
<b>Total</b>	<b>\$16,700,000</b>	<b>\$56,800,000</b>	<b>\$80,300,000</b>	<b>\$16,600,000</b>

## Funding Strategies

- Local funding sources
- Federal funding sources
- State funding sources
  - State Revolving Loan funds (SRF loans)
    - Christopher Stevens
    - Supervising Water Resources Control Engineer
    - Clean Water State Revolving Fund
    - State Water Resources Control Board
    - (916) 341-5698    [cstevens@waterboards.ca.gov](mailto:cstevens@waterboards.ca.gov)

## Applying for Financial Aid

- Planning
  - Community leadership and civic engagement
  - Set up a timeline
- Work with funding contacts
  - Consider expectations of the State (water quality restoration goals; sustainable supplies of water)
  - Attend workshops
  - Submit applications early

## Next Steps

- Next Community Meeting
  - Tentatively scheduled for Thursday, Oct 1 (evening) – details to be posted at  
[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)
- Sept 10 – Release revisions to Tech Memo #3
- Oct 8 – Deadline for written comments
- Nov 5 – Regional Board hearing and proposed adoption

Metropolitan Water District of Southern California  
 700 North Alameda Street  
 Los Angeles, California

## About the program

The Federal Water Pollution Act (Clean Water Act or CWA), as amended in 1987, provides for establishment of a Clean Water State Revolving Fund (CWSRF) program. The program is funded by federal grants, state funds, and revenue bonds.

The primary purpose of the CWSRF program is to implement the CWA and various state laws by providing financial assistance for wastewater treatment facilities necessary to prevent water pollution, recycle water, correct nonpoint source and storm drainage pollution problems, and provide for estuary enhancement, and thereby protect and promote health, safety, and welfare of the inhabitants of the state.

STATE WATER RESOURCES CONTROL BOARD  
REGIONAL WATER QUALITY CONTROL BOARDS

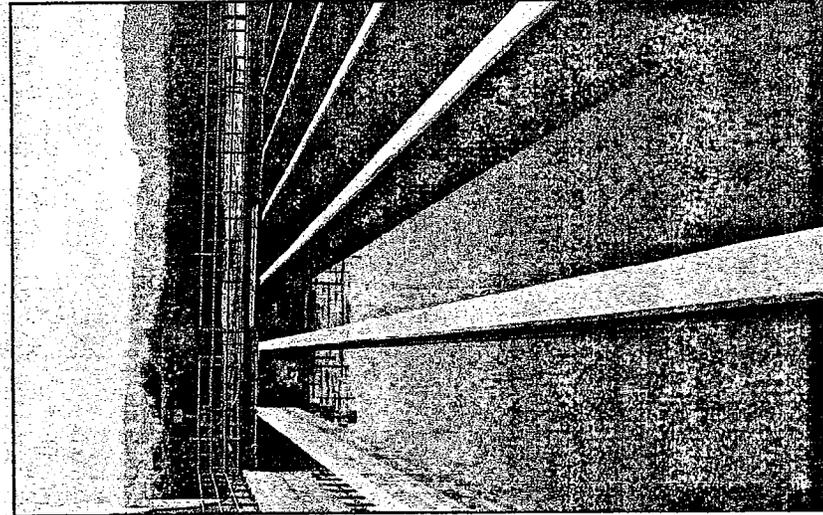

## Clean Water State Revolving Fund Program

Division of Financial Assistance  
10011 Street  
Sacramento, CA 95814  
Phone (916) 341-5700  
Fax (916) 341-5926

[www.waterboards.ca.gov/funding/index.html](http://www.waterboards.ca.gov/funding/index.html)

WE'VE GOT THE  
**GREEN**  
TO KEEP  
CALIFORNIA'S  
**WATER**  
**CLEAN**

Clean Water State Revolving Fund Program  
[www.waterboards.ca.gov/funding/srf.html](http://www.waterboards.ca.gov/funding/srf.html)

### What does the program provide?

- Construction of publicly-owned facilities
  - Waste water treatment
  - Local sewers
  - Sewer interceptors
  - Water reclamation facilities; and
  - Storm water treatment
- Expanded use projects, such as
  - Implementation of nonpoint source (NPS) projects or programs; and
  - Development and implementation of estuary comprehensive conservation and management plans

### Who are eligible applicants?

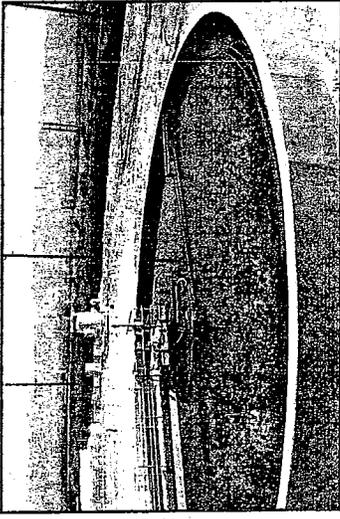

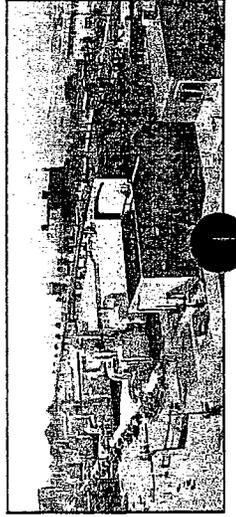

- Any city, town, district, or other public body (including an intermunicipal agency of two or more of the foregoing entities) created under state law;
- A Native American tribal government or an authorized Native American tribal organization having jurisdiction over disposal of sewage, industrial wastes, or other waste;
- Any designated and approved management agency under Section 208 of the Clean Water Act.\*

\* For more information or reference material visit the CWSRF program website:

<http://www.waterboards.ca.gov/funding/srf.html>

### What is the CWSRF project priority list?

- Annually, each Regional Water Quality Control Board Executive Officer develops a CWSRF project priority list recommendation.
- After the review of the Executive Officers' CWSRF project priority list recommendations, the State Water Resources Control Board adopts a statewide CWSRF project priority list.
- A project must be on an adopted CWSRF project priority list to receive funding.
- Each project is assigned to one of the following priority classes.\*
  - **Class A:** *Public Health Problems*
  - **Class B:** *Pollution of Impaired Water Bodies*
  - **Class C:** *Compliance with Requirements and Water Recycling Projects*
  - **Class D:** *Projects Serving as Preventative Measures Against Additional Water Quality Degradation for Impaired or Unimpaired Water Bodies*
  - **Class E:** *Other Projects*

### How much funding is available?

- \$200—\$300 million annually

### What is the funding limit?

- \$50 million per agency/per year

### What are the funding sources?

- Federal grants, state funds, and revenue bonds

### What is the CWSRF term?

- 20 year term with an interest rate equal to one-half the most recent State General Obligation Bond Rate. (Typically 2.5% To 3.5% per year)

- Longer term financing may be available in the future.

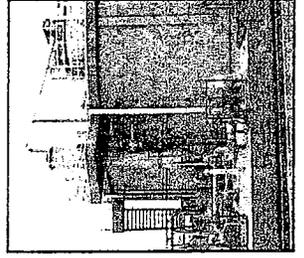

### When are applications accepted?

- Applications are accepted and processed continuously.

### What other funding programs are available?

- For information on other funding programs visit the Division of Financial Assistance website:

<http://www.waterboards.ca.gov/funding/index.html>

## Water Boards' strategic goals:

- Goal 1:** The Boards' organizations are effective, innovative, and responsive
- Goal 2:** Surface waters are safe for drinking, fishing, swimming, and support healthy ecosystems and other beneficial uses
- Goal 3:** Groundwater is safe for drinking and other beneficial uses
- Goal 4:** Water resources are fairly and equitably used and allocated consistent with public trust
- Goal 5:** Individuals and other stakeholders support our efforts and understand their role in contributing to water quality
- Goal 6:** Water quality is comprehensively measured to evaluate protection and restoration efforts

STATE WATER RESOURCES CONTROL BOARD  
REGIONAL WATER QUALITY CONTROL BOARDS

Working together to protect California's water resources.

STATE WATER RESOURCES CONTROL BOARD  
REGIONAL WATER QUALITY CONTROL BOARDS

For more information, or if you have any questions, contact:

OFFICE OF PUBLIC AFFAIRS  
[www.waterboards.ca.gov](http://www.waterboards.ca.gov)  
[info@waterboards.ca.gov](mailto:info@waterboards.ca.gov)  
(916) 341-5254

# OUR MISSION: To preserve, enhance, and restore the quality of California's water resources, and ensure their proper allocation and efficient use for the benefit of present and future generations.

## What the State Water Resources Control Board Does:

Created by the State Legislature in 1967, the five-member Board protects water quality by setting statewide policy, coordinating and supporting the Regional Water Board efforts, and reviewing petitions that contest Regional Board actions. The State Board is also solely responsible for allocating surface water rights.

Each of the five full-time salaried board members fills a different specialized position (representing the public, engineering expertise, water quality expertise and water supply). The members are appointed to four-year terms by the Governor and confirmed by the Senate.

**TAMM DODD**, Board Chair:

Civil engineer qualified in the fields of water supply, water rights and irrigated agriculture

**GARY WOFFE**, P.E., Ph.D., Board Vice-Chair:

Professional engineer qualified in the field of water quality

**CHARLES R. HOPPIN**, Board Member:

Qualified in the field of water quality

**ARTHUR G. BAGGETT, JR.**, Board Member

Attorney qualified in the fields of water supply and water rights

**FRANK L. SPYR-WEBER**, Board Member:

Public member

**DOROTHY RICE**, Director

## Water Quality Control Regions

The State Water Board has four major programs:

**WATER QUALITY:** The State Water Board works in coordination with the Regional Water Boards to preserve, protect, enhance and restore water quality. Major areas of focus include:

- Stormwater
- Wastewater treatment
- Water quality monitoring
- Wetlands protection
- Clean protection
- Environmental education
- Environmental justice
- Clean up contaminated sites, including brownfields
- Low-impact development

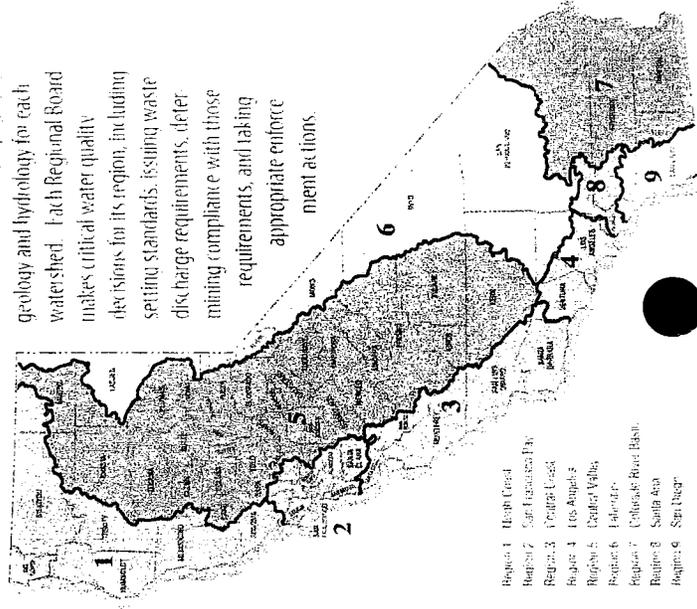

**FINANCIAL ASSISTANCE:** The State Water Board provides loans and grants for constructing municipal sewage and water recycling facilities, remediation for underground storage tank releases, watershed protection projects, and for nonpoint source pollution control projects. The State Water Board has several financial programs to help local agencies and individuals prevent or clean up pollution of the state's water.

**WATER RIGHTS:** Anyone wanting to divert water from a stream or river not adjacent to their property must first apply for a water right permit from the State Water Board. The State Water Board issues permits for water rights specifying amounts, conditions and construction timetables for diversion and storage. Decision-making stems from water availability, prior water rights and flows needed to preserve instream uses, such as recreation and fish habitat.

**ENFORCEMENT:** The State Water Board and the nine Regional Water Quality Control Boards are responsible for swift and fair enforcement when the laws and regulations protecting our waterways are violated. The State Water Board has recently created an Office of Enforcement to assist and coordinate enforcement activities statewide. The Water Boards also work with federal, state and local law enforcement, as well as other environmental agencies to ensure a coordinated approach to protecting human health and the environment.

## What the Regional Water Boards Do:

There are nine regional water quality control boards statewide. The nine Regional Boards are semi-autonomous and are comprised of nine part-time Board members appointed by the Governor and confirmed by the Senate. Regional boundaries are based on watersheds and water quality requirements are based on the unique differences in climate, topography, geology and hydrology for each watershed. Each Regional Board makes critical water quality decisions for its region, including setting standards, issuing waste discharge requirements, determining compliance with those requirements, and taking appropriate enforcement actions.

Region 1: North Coast  
 Region 2: San Francisco Bay  
 Region 3: Central Coast  
 Region 4: Los Angeles  
 Region 5: Central Valley  
 Region 6: Lakeview  
 Region 7: Colorado River Basin  
 Region 8: Santa Ana  
 Region 9: San Diego

**"The program's mission is to effectively manage the Clean Water State Revolving Fund Program to provide below market rate financing to help applicants solve and prevent water quality problems for the benefit of the people of the State of California."**

Projects funded by the Clean Water State Revolving Fund Program.

## The Nature Conservancy

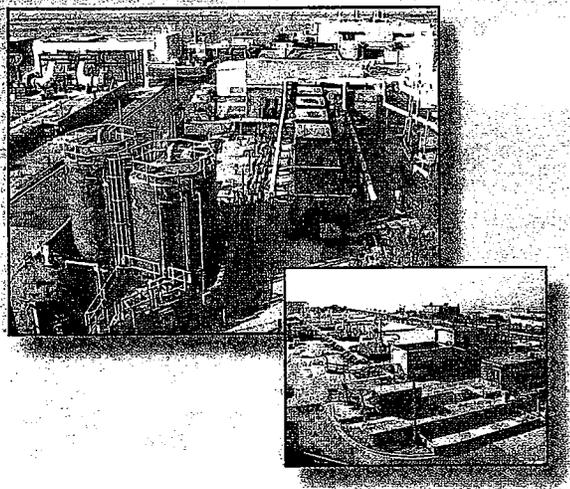

### THE PALO CORONA RANCH WATERSHED PROTECTION PROJECT

ISA NO. C-06-6085-110

Amount: \$9,000,000

2006 U.S. EPA Pisces Award Recipient for "Outstanding California Clean Water State Revolving Fund Project"

The Palo Corona Ranch Watershed Protection project consists of a clean water state revolving fund to payoff short-term interim financing and hold a critical portion of the Palo Corona Ranch property. The Nature Conservancy used its obligation to partially repay the short-term financing to purchase the Palo Corona Ranch due to the urgent threat of acquisition of the property by land developers. The property was quickly transferred to public ownership by the California Department of Fish and Game and Monterey Peninsula Regional Park District.

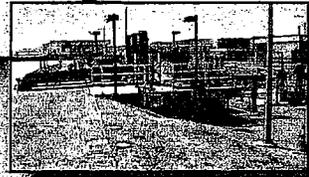

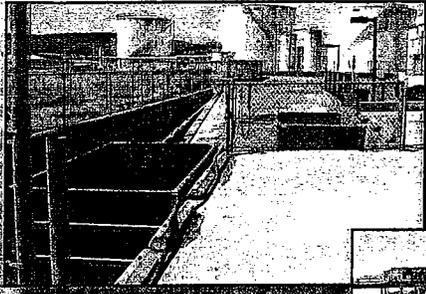

## City of San Diego

### POINT LOMA WASTEWATER TREATMENT PLANT DIGESTERS S1 AND S2 UPGRADE PROJECT

ISA NO. C-06-4540-110

Amount: \$13,281,530

The Point Loma Wastewater Treatment Plant Digesters S1 and S2 Upgrade project consists of replacing the roofs and gas mixing systems of Digesters S1 and S2 and installing sludge gravity feed and withdrawal systems of Digester S1 and S2. The Point Loma Wastewater Treatment Plant provides wastewater treatment for most of the City's metropolitan sewage area. The average dry weather flow to the plant is 190 million gallons per day. The project was a part of a plant upgrade and expansion to meet its waste discharge requirements and future capacity needs.

## City of South San Francisco

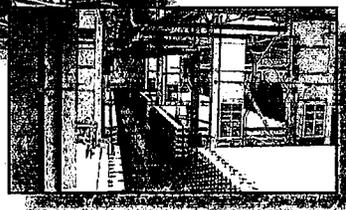

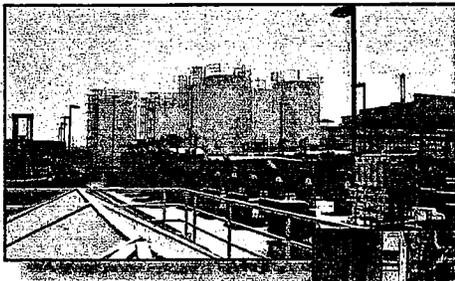

### WET WEATHER PROGRAM PHASE I PROJECT

ISA NO. C-06-4728-110

Amount: \$21,138,033

The Wet Weather Program Phase I project consists of the construction of pump stations, force mains, an unloading station, and an effluent storage pond in the City of South San Francisco.

The project upgraded the wet weather sewer collection and effluent storage system in the city. After the completion of the improvements, the project reduced the sewer system overflows during wet weather.

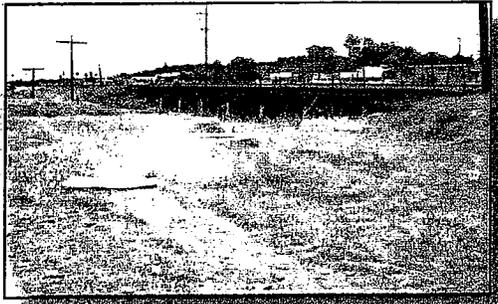

## Orange County Water District

### GROUNDWATER REPLENISHMENT SYSTEM BARRIER FACILITIES PROJECT

ISA NO. C-06-4462-110

Amount: \$162,516,149

The Groundwater Replenishment System Barrier Facilities project consists of the construction of new injection wells used for direct injection of reclaimed water into the seawater barrier for the Orange County Water District's groundwater replenishment system. The project replaced the existing treatment facilities built nearly 30 years ago to supply reclaimed water to the Talbert Gap seawater intrusion barrier. The project increased the production rate to 78,000 acre-feet per year, which reinforced the original barrier and allowed the addition of eight new wells for barrier expansion and groundwater recharge.

## City of Redding

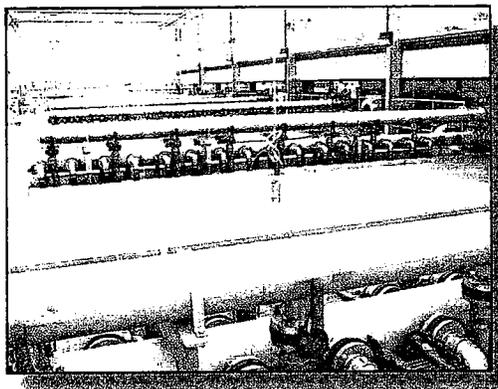

### WESTSIDE SEWER INTERCEPTOR PROJECT

ISA NO. C-06-4708-110

Amount: \$16,792,600

The Westside Sewer Interceptor project consists of the construction

of the interceptor, adjacent and in parallel to the main existing interceptor from Butte Street to the Clear Creek Wastewater Treatment Plant. The project augmented hydraulic capacity to accommodate population growth and system peak flows. The population discharging sewage for the year 2040 is projected to be 142,000, with average dry weather flow of 14.06 million gallons per day, and peak wet weather flow of 63.13 million gallons per day to be distributed between the existing sewer and the new Westside Sewer Interceptor.

## City of Redlands

### WATER RECLAMATION AND TREATMENT PROJECT

ISA NO. C-06-4800-110

Amount: \$7,851,084

The Water Reclamation and Treatment Plant Upgrade project consists of the construction of

advanced wastewater treatment facilities at the existing wastewater treatment plant and the installation of a recycled water pipeline to a power generating facility. The project augmented State and local water supplies by producing approximately five million gallons per day of recycled water. The project also helped achieve local watershed goals by reducing the amount of salts returned to the local groundwater basin.

Marissa M. Coughlan  
Marissa M. Coughlan Consultants  
23852 PCH, #324  
Malibu, CA 90265

This lady asked me to inform our legal counsel that she is filing a formal complaint/point of order, in that she was not allowed to speak despite the publically noticed schedule for the meeting (to noon). She is correct, in that one of our notices (the flyer) said noon (the others said 11:45).

Yesterday (after the workshop), I apologized and explained that:

1. When we opened up the workshop for public comment, I had only seven people who asked to speak cards, and I didn't think we needed a time limit per speaker. (I won't make that mistake again, as many cards came in later.)
2. I asked for her contact info, and assured her that we were very interested in her comments, and would contact her. (Di and I did so by phone, this morning.)
3. If we'd been able to stay in the room originally scheduled for the workshop, we would have had the flexibility to stay late. But, since we switched to a larger room, we had to get out. I also explained that we were unable to stay in the room, past 11:50, as a lecture for Pepperdine students was starting promptly at noon. (And, indeed, masses of students were clamoring to get in.)

Also, we plan to give her (plus four other speakers whom I had to cut off) time at the beginning of the next workshop.

**Rosie Villar - Proposed OWDS Prohibition - Malibu Civic Center Area - Notice of Public Hearing October 1, 2009**

#1

*Email sent to  
400+ contacts*

**From:** Rosie Villar  
**To:** Rosie Villar  
**Date:** 7/31/2009 3:34 PM  
**Subject:** Proposed OWDS Prohibition - Malibu Civic Center Area - Notice of Public Hearing October 1, 2009

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will consider a proposed amendment to the Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan) to prohibit on-site wastewater disposal systems (OWDSs) in the Civic Center area of the City of Malibu. The public hearing is scheduled to occur during a public meeting of the Regional Board on Thursday, October 1, 2009 at 9:00 a.m. in the Board Room of the Metropolitan Water District of Southern California, 700 N. Alameda Street, Los Angeles, California.

Copies of a tentative resolution with the proposed amendment to the Basin Plan, a technical staff report (including five technical memoranda), and an environmental staff report (containing substitute environmental documentation including a CEQA analysis) can be obtained from the Regional Board website at [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public\\_Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public_Hearing-Malibu/index.shtml).

For technical issues, you may contact Dr. Rebecca Chou at (213) 620-6156 ([rchou@waterboards.ca.gov](mailto:rchou@waterboards.ca.gov)), and Ms. Elizabeth Erickson at (213) 620-2264 ([eerickson@waterboards.ca.gov](mailto:eerickson@waterboards.ca.gov)).

The Regional Board has established a new e-mail subscription list information about the proposed prohibition on OWDSs in the Malibu Civic Center area, and encourages all persons interested in this regulatory action to subscribe to this e-mail list as the most efficient means of receiving Regional Board communications about this matter. To subscribe to the e-mail list, visit the Regional Board's Web site at [http://www.waterboards.ca.gov/resources/email\\_subscriptions/reg4\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/reg4_subscribe.shtml). The name of the e-mail subscription list is Prohibition - Malibu Civic Center Septics.

Thank you for your interest in this matter.

~~CONFIDENTIAL~~

As you're aware, the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) has scheduled a public hearing, on October 1, 2009, to consider a proposed amendment to the Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan) to prohibit on-site wastewater disposal systems (OWDSs) in the Civic Center area of the City of Malibu. The public hearing is scheduled to occur during a public meeting of the Regional Board on Thursday, October 1, 2009 at 9:00 a.m. in the Board Room of the Metropolitan Water District of Southern California, 700 N. Alameda Street, Los Angeles, California.

The purpose of this announcement is to advise you that minor corrections have been made to Technical Memorandum #4: Nitrogen Loads from Wastewater Flowing to Malibu Lagoon are a Significant Source of Impairment to Aquatic Life. A corrected version of Tech Memo #4 (draft dated August 5, 2009), with the corrections indicated (see pages T4-8, T4-17, T4-38, T4-39) is posted on our Web site, at [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public\\_Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public_Hearing-Malibu/index.shtml).

For technical issues about Tech Memo #4, you may contact Ms. Toni Callaway at (213) 620-2259 ([tcallawa@waterboards.ca.gov](mailto:tcallawa@waterboards.ca.gov)). For other technical issues, you may contact Dr. Rebecca Chou at (213) 620-6156 ([rchou@waterboards.ca.gov](mailto:rchou@waterboards.ca.gov)), and Ms. Elizabeth Erickson at (213) 620-2264 ([eerickson@waterboards.ca.gov](mailto:eerickson@waterboards.ca.gov)).

To subscribe to this new e-mail subscription list to receive updates on the Regional Board's proposed prohibition on On-Site Wastewater Disposal Systems in the Malibu Civic Center area, visit the Regional Board's Web site at [http://www.waterboards.ca.gov/resources/email\\_subscriptions/reg4\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/reg4_subscribe.shtml). The name of the e-mail subscription list is Prohibition - Malibu Civic Center Septics.

Thank you for your interest in this matter.

Rosie Villar

**Rosie Villar - Maps - Proposed Prohibition for Malibu Civic Center Area***Email #5*

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 8/19/2009 2:29 PM  
**Subject:** Maps - Proposed Prohibition for Malibu Civic Center Area

---

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

Staff at the LA Regional Board has received requests for clarification on the boundaries for the area subject to the proposed prohibition. To delineate the prohibition area, staff used drainage patterns and hydrogeologic parameters. Referred to as the "Malibu Civic Center area," the proposed prohibition encompasses the following:

- Malibu Valley Groundwater Basin
- Winter Canyon
- adjacent coastal strips, including Malibu Lagoon, Amarillo Beach, Malibu Beach, and Malibu Lagoon (Surfrider) Beach.

A location map

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)] shows the prohibition boundaries of the Malibu Civic Center area, including the hydrologic features listed above. A parcel map

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)] shows parcel boundaries in relation to the prohibition boundaries. Where the prohibition boundary crosses a parcel, only that portion of the parcel inside of the boundary is subject to the prohibition.

Also, for a table listing residential properties by address and by AIN (assessors identification number), you may refer to pages T4-22 to T4-30 in Tech Memo #4

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)] appended to the Technical Staff Report

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)]. For further questions about the location of parcels affected by the proposed prohibition, you may contact Mr. Joe Luera, Water Resources Control Engineer, at (213) 576-6706 or [jluera@waterboards.ca.gov](mailto:jluera@waterboards.ca.gov). For technical questions about the prohibition, you may contact Ms. Toni Callaway at (213) 620-2259 or [tcallawa@waterboards.ca.gov](mailto:tcallawa@waterboards.ca.gov).

Thank you for your interest in this matter.

### NOTICE OF HEARING

To: Interested Persons

From: Wendy Phillips, Chief  
Groundwater Permitting/Landfill Section  
California Regional Water Quality Control Board, Los Angeles Region

Date: August 19, 2009

Subject: Notice of Public Hearing for a proposed amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan)*, to prohibit on-site wastewater disposal systems in the Civic Center area of the City of Malibu.

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will consider a proposed amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan)*, to prohibit on-site wastewater disposal systems (OWDSs) in the Civic Center area of the City of Malibu. Additional regulations or policies, consistent with the general purpose of the proposed amendment and complementary to the proposed prohibition, may be developed at the hearing as a logical outgrowth of discussions. The Regional Board may act on the proposed amendment after hearing staff's presentation and public comments.

The public hearing is scheduled to occur during a public meeting of the Regional Board on Thursday, November 5, 2009 at 9:00 a.m. in the Board Room of the Metropolitan Water District of Southern California, 700 N. Alameda Street, Los Angeles, California. At the public hearing, the public will have opportunity to comment on the proposed prohibition. All exhibits, including charts, graphs and other testimony presented at the public hearing, must be left with the Regional Board for inclusion in the Administrative Record. Please note that the Regional Board may impose time limits on oral testimony at the public hearing.

Copies of a tentative resolution with the proposed amendment to the *Basin Plan*, a technical staff report (including five technical memoranda), and an environmental staff report (containing substitute environmental documentation, including a California Environmental Quality Act analysis) may be downloaded at [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public\\_Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public_Hearing-Malibu/index.shtml). For hard copies of these documents, you may contact Ms. Rosie Villar at (213) 576-1364 or [rvillar@waterboards.ca.gov](mailto:rvillar@waterboards.ca.gov). For updates on this proposed regulatory action, you may subscribe to a Lyris list on the Regional Board's Web site by checking "Prohibition - Malibu Civic Center Septics" at [http://www.waterboards.ca.gov/resources/email\\_subscriptions/reg4\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/reg4_subscribe.shtml).

*California Environmental Protection Agency*

*Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.*

For technical issues, you may contact Dr. Rebecca Chou at (213) 620-6156 ([rchou@waterboards.ca.gov](mailto:rchou@waterboards.ca.gov)) or Ms. Elizabeth Erickson at (213) 620-2264 ([eerickson@waterboards.ca.gov](mailto:eerickson@waterboards.ca.gov)).

Written comments and exhibits must be submitted to the Regional Board no later than **2:00 p.m. on October 8, 2009**. Failure to comply with these requirements is grounds for the Board to refuse to admit the proposed written comment or exhibit into evidence (California Code of Regulations, Title 23, Section 649.4). Comments should be submitted to the attention of Dr. Rebecca Chou, Chief of the Groundwater Permitting Unit, at the:

California Regional Water Quality Control Board, Los Angeles Region  
320 West 4<sup>th</sup> Street, Suite 200  
Los Angeles, California 90013

**Purpose**

The purpose of the proposed amendment to the *Basin Plan* to prohibit OWDSs is to stop and prevent impairment of groundwater and surface water in the Malibu Civic Center area. This proposed regulatory action would help restore beneficial uses designated for groundwater, Malibu Lagoon, and nearby beaches. The prohibition would also reduce public nuisance resulting from reliance by many commercial OWDS dischargers on tanker truck transport for a portion of the sewage generated by activities on their sites.

**Structure of the Proposed Prohibition**

The proposed prohibition would affect existing and future OWDSs in the Malibu Civic Center area, including Malibu Valley, Winter Canyon, and the adjacent coastal strips of land and beaches. Types of subsurface disposal systems, or OWDSs, that would be prohibited range from passive systems with conventional septic tanks to active systems that more aggressively remove pollutant loads from sewage before subsurface disposal. The prohibition would apply to systems that serve individual properties (residential, commercial, industrial, and public properties) as well as groups of those properties.

The prohibition would immediately prohibit all new discharges from OWDSs and would prohibit discharges from existing systems within five years from the date of adoption by the Regional Board of this *Basin Plan* amendment. An exemption would allow for "zero-discharge" projects if a discharger can demonstrate, to the satisfaction of the Executive Officer, that reuse, evaporation, and/or transpiration will use 100% of the wastewater generated by activities on a site, will not contribute to a rise in the water table, and will contain and properly handle any brines and/or off-specification wastewaters that cannot be reused/discharged in a manner that meets water quality objectives established in the *Basin Plan*.

*California Environmental Protection Agency*

*Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.*

**Technical Evidence in Support of the Proposed Prohibition**

In a technical staff report, staff presents evidence in support of the proposed prohibition and makes the following conclusions:

- i. Dischargers subject to Orders from the Regional Board that specify waste discharge requirements (WDRs) for OWDSs have poor records of compliance. (See Technical Memoranda #1 appended to the technical staff report.)
- ii. Discharges of wastewaters released from OWDSs to groundwater contain elevated levels of pathogens and nitrogen that impair underlying groundwater as a potential source of drinking water. (See Technical Memoranda #2 appended to the technical staff report.)
- iii. Discharges of wastewaters released from OWDSs to groundwater that is in hydraulic connection with beaches along the mouths of unsewered watersheds transport pathogens that elevate risks of infectious disease for water contact recreation. (See Technical Memoranda #3 appended to the technical staff report.)
- iv. Discharges of wastewaters released from OWDSs to groundwater that is in hydraulic connection with Malibu Lagoon transport a nitrogen load significantly in excess of the wasteload allocation in the TMDL established to restore water quality to a level sufficient to protect aquatic life and prevent nuisance resulting from eutrophication. (See Technical Memoranda #4 appended to the technical staff report.)
- v. Wastewater flows in the Civic Center area have been increasing. On many sites, hydrogeologic conditions are unsuitable for high flows of wastewater, and many dischargers generate wastewater flows at rates that exceed their capacity to discharge on-site. These dischargers rely on pumping significant flows into tanker trucks that haul liquid sewage and sludge via public roadways to communities that have sewer and wastewater treatment facilities. (See Technical Memoranda #5 appended to the technical staff report.)

Based on these conclusions, the technical staff report includes staff's recommendation to prohibit OWDSs in the Malibu Civic Center area, to protect the quality of water resources and to restore beneficial uses. See the tentative resolution for the proposed amendment to the *Basin Plan*.

**Environmental and Economic Considerations**

In an environmental staff report, staff has presented substitute environmental documentation on the proposed prohibition, program alternatives, and impacts that may occur from reasonably foreseeable means of complying with the prohibition, in accordance with the California

Environmental Quality Act (CEQA) and the Porter-Cologne Water Quality Control Act (Porter-Cologne). The report is organized to provide the public with the following information:

- A description of the proposed action (i.e. the prohibition).
- Summaries of 'program' alternatives, including:
  - a local government initiative to voluntarily select and implement remedies to address water quality pollution and restore beneficial uses,
  - a "no action" alternative by the Regional Board or other authority, and
  - the recommended program alternative.
- Conceptual descriptions of options for projects that could achieve compliance with the prohibition, and estimated costs for construction and operation of these projects, including:
  - integrated water resources management facilities,
  - a community sewer collection system and interceptor sewer to export sewage to treatment works in another community, and
  - decentralized wastewater management facilities.
- An analysis of impacts to the environmental from the conceptual projects that could be implemented to comply with the prohibition, including:
  - an environmental checklist and discussion of impacts,
  - other environmental considerations, and
  - a statement of overriding considerations and determinations.

### **Documentation Associated with the Proposed Prohibition**

The documents in support of the Regional Board's proposed regulatory action to prohibit OWDSs in the Malibu Civic Center area include:

**Tentative Resolution** (draft dated July 31, 2009) to prohibit OWDSs and to certify the environmental staff report determining that the prohibition may have a significant or potentially significant effect on the environment, and therefore alternatives, methods of compliance, and mitigation measures have been evaluated.

**Technical Staff Report** (draft dated July 31, 2009), presenting evidence in support of an Amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura*

*California Environmental Protection Agency*

*Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.*

*and Los Angeles Counties to prohibit OWDSs in the Malibu Civic Center area (overview), including the following technical memoranda:*

- Technical Memorandum #1: Permitted Dischargers Have Poor Records of Compliance with Regional Board Orders.
- Technical Memorandum #2: Pathogens and Nitrogen in Wastewaters Impair Underlying Groundwater as a Potential Source of Drinking Water. (*updated on August 11, 2009*)
- Technical Memorandum #3: Pathogens in Wastewaters that are in Hydraulic Connection with Beaches are a Significant Source of Impairment to Water Contact Recreation. (*Note – staff intends to release raw data used in this tech memo by August 24, 2009.*)
- Technical Memorandum #4: Nitrogen Loads in Wastewaters flowing to Malibu Lagoon Are a Significant Source of Impairment to Aquatic Life.
- Technical Memorandum No. #5: Dischargers with Unsuitable Hydrogeologic Conditions for High Flows of Wastewaters Resort to Hauling Liquid Sewage and Sludge to Communities that have Sewer and Wastewater Treatment Facilities. (*updated on August 5, 2009*)

**Environmental Staff Report** (draft dated July 31, 2009) in support of an Amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties*, including substitute environmental documentation pursuant to CEQA and Porter-Cologne.

These documents may be downloaded at [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/PublicHearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/PublicHearing-Malibu/index.shtml). Or you may contact Ms. Rosie Villar at (213) 576-1364 or [rvillar@waterboards.ca.gov](mailto:rvillar@waterboards.ca.gov) for a hard copy of any or all of these documents.

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 8/19/2009 2:32 PM  
**Subject:** Community Meeting - September 1, 2009 - Proposed OWDS Prohibition for Malibu Civic Center Area  
**Attachments:** Public Notice 09-106.pdf; Part.003; Part.004

---

Staff at the Regional Board will hold a community meeting to discuss a proposed amendment to the *Basin Plan* to prohibit on-site wastewater disposal systems (OWDSs) in the Malibu Civic Center area. The meeting will be on Tuesday, September 1, 2009 from 10:00am to 11:45am, in the Fireside Room next to the cafeteria at Pepperdine University, 24255 Pacific Coast Hwy, Malibu.

You may view the proposed amendment and documents related to this proposed regulatory action by visiting the following Web page or Regional Board's Office. [www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml).

Should you have questions, please contact Wendy Phillips at (213) 576-6618 or [wphillips@waterboards.ca.gov](mailto:wphillips@waterboards.ca.gov).

Thank you for your interest in this matter.

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
LOS ANGELES REGION

Public Notice No. 09-106

NOTICE OF PUBLIC HEARING AND BOARD MEETING

Thursday, November 5, 2009

9:00 a.m.

Metropolitan Water District of Southern California  
700 North Alameda Street  
Los Angeles, California

**Proposed Amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties* to Prohibit On-Site Wastewater Disposal Systems  
in the Civic Center Area of the City of Malibu.**

NOTICE IS HEREBY GIVEN that the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will hold a public hearing on a proposed amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties (Basin Plan)*. The proposed amendment will prohibit on-site wastewater disposal systems in the Civic Center area of the City of Malibu. Following the hearing, the Regional Board may vote on 1) a tentative Resolution to adopt the proposed amendment to the Basin Plan and 2) substitute environmental documents to comply with the California Environmental Quality Act (CEQA).

Public Comment: Interested individuals may submit written or oral comments on the proposed amendment. Written comments must be received at the address below no later than 2:00pm on October 8, 2009.

California Regional Water Quality Control Board  
Attn: Dr. Rebecca Chou  
320 West 4<sup>th</sup> Street, Suite 200  
Los Angeles, California 90013

Oral comments will be accepted during the public hearing. To allow all interested individuals an opportunity to comment, a time limit of 3-5 minutes per speaker may be imposed.

Community Meeting: A community meeting to discuss the proposed amendment will be on September 1, 2009 from 10:00am to 11:45am. The meeting will be held in the Fireside Room, next to the cafeteria at Pepperdine University, 24255 Pacific Coast Hwy, Malibu, California.

Additional Information: The proposed amendment and related documents can be viewed by visiting the following web site or Regional Board's Office.

[www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)

**Rosie Villar - Maps (updated links) - Proposed Prohibition for Malibu Civic Center Area**

*Email #8*

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 8/20/2009 11:34 AM  
**Subject:** Maps (updated links) - Proposed Prohibition for Malibu Civic Center Area

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

The links in the e-mail sent out yesterday regarding new maps have been updated, and we are re-sending this information.

Staff at the LA Regional Board has received requests for clarification on the boundaries for the area subject to the proposed prohibition. To delineate the prohibition area, staff used drainage patterns and hydrogeologic parameters. Referred to as the "Malibu Civic Center area," the proposed prohibition encompasses the following:

- Malibu Valley Groundwater Basin
- Winter Canyon
- adjacent coastal strips, including Malibu Lagoon, Amarillo Beach, Malibu Beach, and Malibu Lagoon (Surfrider) Beach.

A location map

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/MCCA\\_location\\_map.pdf](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/MCCA_location_map.pdf)] shows the prohibition boundaries of the Malibu Civic Center area, including the hydrologic features listed above. A parcel map

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/Parcels Within MCCA.pdf](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/Parcels Within MCCA.pdf)] shows parcel boundaries in relation to the prohibition boundaries. Where the prohibition boundary crosses a parcel, only that portion of the parcel inside of the boundary is subject to the prohibition.

Also, for a table listing residential properties by address and by AIN (assessors identification number), you may refer to pages T4-22 to T4-30 in Tech Memo #4

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/Tech Memo\\_4\\_09-08-05.pdf](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/Tech Memo_4_09-08-05.pdf)] appended to the Technical Staff Report

[[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)].

Thank you for your interest in this matter.

**Rosie Villar - Maps - Proposed Prohibition for Malibu Civic Center Area** #10

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 8/25/2009 3:17 PM  
**Subject:** Maps - Proposed Prohibition for Malibu Civic Center Area

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

In response to more requests for clarification, this update replaces the map update posted on Aug 19, 2009. Included in this update is a revised\_location map and revised parcel map. To delineate the prohibition area, staff used, to the extent practical, drainage patterns and hydrogeologic parameters. Referred to as the "Malibu Civic Center area," the proposed prohibition encompasses the following:

- Malibu Valley Groundwater Basin
- Winter Canyon
- adjacent coastal strips, including Amarillo Beach, Malibu Beach, Malibu Lagoon (Surfrider) Beach, and Malibu Lagoon.

**Note that the boundaries of the prohibition extend all the way to the coast.** (To avoid confusion, the red boundary line along the coast on earlier versions of the maps has been removed on this Aug 25, 2009 version.) The maps also show the prohibition boundary in relation to the municipal boundary between the City of Malibu and unincorporated County of Los Angeles. **Along the western boundary of the prohibition area, in upper Winter Canyon and along Pepperdine University, please note that a portion of the prohibition area lies within unincorporated county jurisdiction. Along the eastern and northern boundaries, please note that the prohibition boundary has been drawn more precisely along Sweetwater Mesa Drive, which roughly approximates the topographic high between Malibu Creek and Sweetwater Canyon.**

As noted before, where the prohibition boundary crosses a parcel, only that portion of the parcel inside of the boundary is subject to the prohibition.

For further questions about the location of parcels affected by the proposed prohibition, you may contact Mr. Joe Luera, Water Resources Control Engineer, at (213) 576-6706 or [jluera@waterboards.ca.gov](mailto:jluera@waterboards.ca.gov). For technical questions about the prohibition, you may contact Ms. Toni Callaway at (213) 620-2259 or [tcallawa@waterboards.ca.gov](mailto:tcallawa@waterboards.ca.gov).

If you would like to subscribe to this list please go to:  
[http://www.waterboards.ca.gov/resources/email\\_subscriptions/reg4\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/reg4_subscribe.shtml) list name Prohibition - Malibu Civic Center Septics.

**Subject:** Maps - Proposed Prohibition for Malibu Civic Center Area Links

---

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

In response to more requests for clarification, this update replaces the 'map update' posted on Aug 19, 2009 (and includes links that were inadvertently missed in yesterday's electronic announcement). Included in this update is a revised\_location map and revised parcel map, at these links.

**Location Map**

[http://www.swrcb.ca.gov/rwqcb4/press\\_room/announcements/Public-Hearing-Malibu/MCCA\\_location\\_map.pdf](http://www.swrcb.ca.gov/rwqcb4/press_room/announcements/Public-Hearing-Malibu/MCCA_location_map.pdf)

**Parcel Map**

[http://www.swrcb.ca.gov/rwqcb4/press\\_room/announcements/Public-Hearing-Malibu/Parcels Within MCCA 082509.pdf](http://www.swrcb.ca.gov/rwqcb4/press_room/announcements/Public-Hearing-Malibu/Parcels Within MCCA 082509.pdf)

To delineate the prohibition area, staff used, to the extent practical, drainage patterns and hydrogeologic parameters. Referred to as the "Malibu Civic Center area," the proposed prohibition encompasses the following:

- Malibu Valley Groundwater Basin
- Winter Canyon
- adjacent coastal strips, including Amarillo Beach, Malibu Beach, Malibu Lagoon (Surfrider) Beach, and Malibu Lagoon.

**Note that the boundaries of the prohibition extend all the way to the coast.** (To avoid confusion, the red boundary line along the coast on earlier versions of the maps has been removed on this Aug 25, 2009 version.) The maps also show the prohibition boundary in relation to the municipal boundary between the City of Malibu and unincorporated County of Los Angeles. **Along the western boundary of the prohibition area, in upper Winter Canyon and along Pepperdine University, please note that a portion of the prohibition area lies within unincorporated county jurisdiction. Along the eastern and northern boundaries, please note that the prohibition boundary has been drawn more precisely along Sweetwater Mesa Drive, which roughly approximates the topographic high between Malibu Creek and Sweetwater Canyon.**

As noted before, where the prohibition boundary crosses a parcel, only that portion of the parcel inside of the boundary is subject to the prohibition.

For further questions about the location of parcels affected by the proposed prohibition, you may contact Mr. Joe Luera, Water Resources Control Engineer, at (213) 576-6706 or

[jluera@waterboards.ca.gov](mailto:jluera@waterboards.ca.gov). For technical questions about the prohibition, you may contact Ms. Toni Callaway at (213) 620-2259 or [tcallawa@waterboards.ca.gov](mailto:tcallawa@waterboards.ca.gov).

Staff will be posting future updates and revisions on our Malibu Prohibition Web page, at this link: [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml). When updates are posted, we shall send out electronic announcements (such as this one) of these updates.

To subscribe to our list for these announcements, please go to: [http://www.waterboards.ca.gov/resources/email\\_subscriptions/reg4\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/reg4_subscribe.shtml), where you will find various lists. For this list, please check Prohibition - Malibu Civic Center Septics.

---

As announced in our notice to you in our notice on August 19, 2009, staff at the Regional Board will hold a workshop to discuss a proposed amendment to the *Basin Plan* to prohibit on-site wastewater disposal systems (OWDSs) in the Malibu Civic Center area. The meeting will be on Tuesday, September 1, 2009 from 10:00am to 11:45am, in the Fireside Room next to the cafeteria at Pepperdine University, 24255 Pacific Coast Hwy, Malibu. A flyer for this meeting is attached. Should you have questions, please contact Wendy Phillips at (213) 576-6618 or [wphillips@waterboards.ca.gov](mailto:wphillips@waterboards.ca.gov).

You may review documents related to the proposed prohibition at our Malibu Prohibition Web page, at: [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml). When updates are posted, we shall send out electronic announcements (such as this one) of these updates.

### NOTICE OF WORKSHOP AND OTHER OPPORTUNITIES TO COMMENT ON A PROPOSED AMENDMENT TO THE WATER QUALITY CONTROL PLAN FOR THE COASTAL WATERSHEDS OF VENTURA AND LOS ANGELES COUNTIES TO PROHIBIT ON-SITE WASTEWATER DISPOSAL SYSTEMS IN THE MALIBU CIVIC CENTER AREA

**WHO:** Stakeholders and other interested individuals are invited to review and comment on a proposed amendment to the *Water Quality Control Plan for the Coastal Watersheds of Ventura and Los Angeles Counties* to prohibit on-site wastewater disposal systems in the Malibu civic center area.

**WHAT:** On November 5, 2009, the Regional Board will consider a proposal to prohibit on-site wastewater disposal systems (septic systems) in the Malibu civic center area. To assist with its deliberations, the Regional Board is seeking public comment on the proposed prohibition. A copy of the proposed prohibition can be viewed by visiting the following web site:

[www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml)

**HOW:** Stakeholders and other interested individuals can comment on the proposed prohibition by attending either a workshop or community meeting, by submitting written comments or by providing oral testimony during the Regional Board's November meeting.

**WORKSHOP:** September 1, 2009, 10 am – Noon  
Fireside Room (next to cafeteria)  
Pepperdine University  
24255 Pacific Coast Highway  
Malibu, CA

**COMMUNITY MEETING:** To be announced.

**WRITTEN COMMENTS:** Deadline: 2:00 pm, October 8, 2009  
California Regional Water Quality Control Board  
Attn: Dr. Rebecca Chou  
320 West 4<sup>th</sup> Street, #200  
Los Angeles, CA 90013

**REGIONAL BOARD MEETING:** Thursday, November 5, 2009, 9:00 am  
Metropolitan Water District of Southern California  
700 North Alameda Street  
Los Angeles, CA

**CONTACT INFORMATION:** For additional information, please contact Dr. Rebecca Chou at 213.620.6156 or [rchou@waterboards.ca.gov](mailto:rchou@waterboards.ca.gov)

**Rosie Villar - Room Change! Workshop - Tues, Sept 1 at 10am**

#13

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 8/28/2009 3:46 PM  
**Subject:** Room Change! Workshop - Tues, Sept 1 at 10am  
**Attachments:** Town Hall Map.jpg; Part.003; Part.004

The room has changed for the workshop taking place at 10 am on Tuesday, September 1, 2009 at Pepperdine University, 24255 Pacific Coast Highway. The new room is in the Pendleton Learning Center, **PLC room #125**. See the attached Pepperdine map. Parking at Pepperdine is free, but we encourage carpooling as classes will be in session. Once you park, go up the stairs from the Firestone Fieldhouse parking lot and then take another set of stairs up to the fountain. From there take the ramp down and PLC 125 will be the first room on the left.

While the focus of the workshop will be to hear from the public, staff will present background information at the beginning of the workshop, as outlined on the agenda below:

**Agenda**

- Introductory Remarks
- Proposed Prohibition
- Reasons for the Prohibition
  - . Polluted Lagoon
  - . Polluted Beaches
  - . Polluted Groundwater
  - . Compliance Records
  - . Reliance on hauling
- Alternatives
- Economics
- Public (comments and questions)

Staff will be posting future updates and revisions on our Malibu Prohibition Web page, at this link: [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml). When updates are posted, we shall send out electronic announcements (such as this one) of these updates.

**Subject:** Tech Memo #3 (Pathogens .... Beaches)

---

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

Staff has released a revised draft, dated September 10, 2009, of Tech Memo #3 (Pathogens In Wastewaters that are in Hydraulic Connection with Beaches represent a Source of Impairment for Water Contact Recreation). The tech memo has been updated to focus on bacteriological results for beaches near the Malibu Civic Center area. The revised draft may be downloaded at this link:

[http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/Tech-Memo-3-revised-09-09-10.pdf](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/Tech-Memo-3-revised-09-09-10.pdf)

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

---

As announced in our September 9, 2009 posting, the Regional Board will hold a community meeting on October 1, 2009 at 6:00 p.m. at Elkins Auditorium, Pepperdine University in Malibu. To get to the Elkins Auditorium, enter the University on Seaver Drive off Malibu Canyon Road. Two parking lots are available for the auditorium. From the Smothers Parking lot (shown as Lot 1 in the attached map) walk down the main stairs towards the fountain in the center of the campus and the auditorium will be on the right. If Lot 1 is full, use Theme Tower Parking Lot (shown as Lot 2 in the attached map), walk up the sidewalk on Seaver Drive, through the Smothers Parking Lot, down the stairs to the auditorium. Shuttle service is available every 20 minutes from the Theme Tower parking Lot to the Smothers Parking Lot.

**Rosie Villar - Reminder - Community Meeting Thursday, October 1, 2009 to discuss prohibition in the Malibu Civic Center Area**

#19

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 9/30/2009 11:10 AM  
**Subject:** Reminder - Community Meeting Thursday, October 1, 2009 to discuss prohibition in the Malibu Civic Center Area  
**Attachments:** Parking 001.JPG; Part.003; Part.004

This is to remind you that the Regional Board will hold a Community Meeting to discuss septic prohibition in the Malibu Civic Center Area on October 1, 2009 from 6:00 pm to 8:00 pm at the Elkins Auditorium at Pepperdine University in Malibu. To get to the Elkins Auditorium, enter the University on Seaver Drive off Malibu Canyon Road. Two parking lots are available for the auditorium. From the Smothers Parking lot (shown as Lot 1 in the attached map), walk down the main stairs towards the fountain in the center of the campus and the auditorium will be on the right. If Lot 1 is full, use Theme Tower Parking Lot (shown as Lot 2 in the attached map), walk up the sidewalk on Seaver Drive, through the Smothers Parking Lot down the stairs to the auditorium. Shuttle service is available every 20 minutes from the Theme Tower Parking Lot to the Smothers Parking Lot.

**Rosie Villar - Board Meeting location changed**

---

**From:** <lyris@swrcb18.waterboards.ca.gov>  
**To:** Rosie Villar <rvillar@waterboards.ca.gov>  
**Date:** 10/14/2009 9:51 AM  
**Subject:** Board Meeting location changed

---

This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

Due to circumstances beyond our control, the November 5, 2009 Board meeting has been moved from the Metropolitan Water District to the City of Simi Valley Council Chambers located at 2929 Tapo Canyon Road, Simi Valley, California. The agenda for the meeting has not changed. The Malibu Civic Center Area-Proposed amendment to the Basin Plan to prohibit On-Site Wastewater Disposal Systems is still scheduled. Although the meeting starts at 9:00 a.m., the estimated times when each item will be heard is not yet determined.

If you have any questions, please contact Dionisia Rodriguez at (213) 620-6122 or [drodriguez@waterboards.ca.gov](mailto:drodriguez@waterboards.ca.gov).

Staff will be posting future updates and revisions on our Malibu Prohibition Web page, at this link: [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml). This is a message from the California Regional Water Quality Control Board, Los Angeles Region (4).

**CHANGE OF VENUE:** November 5, 2009 Meeting of the Los Angeles Regional Water Quality Control Board. A significant number of stakeholders have expressed interest in attending the November 5th meeting of the Los Angeles Regional Water Quality Control Board. To better accommodate those using public transportation and to provide sufficient seating for all participants, the meeting has been moved to the Board Room at the Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, CA. The Regional Board appreciates your support with selecting a meeting location that can accommodate many stakeholders.

For information on public transit options, please visit [www.metro.net](http://www.metro.net)

For information on parking options at MWD/Union Station, please call 213.217.6000 or visit: [www.mwdh2o.com/mwdh2o/pages/about/union\\_station\\_parking\\_map.pdf](http://www.mwdh2o.com/mwdh2o/pages/about/union_station_parking_map.pdf)

For information about the Regional Board's November 5th meeting, please contact Ms. Ronji Harris at 213.576.6612 or [rharris@waterboards.ca.gov](mailto:rharris@waterboards.ca.gov)

**Subject:** Update on Resolution, Technical Staff Report, Environmental Staff Report and Comment Letters  
**Attachments:** CEQA Notice 09-10.pdf; Part.003; Part.004

---

Staff has posted 46 comment letters received on or before October 8, 2009. As there are over 600 pages of comments, they have been divided into five categories for downloading: GOV, NGOs, WDR Dischargers, Other Dischargers, Other. Please note that this posting (10-23-09, p.m.) contains corrected placement of some comments since our earlier posting in the morning. Staff's responses to the comments will be posted before the Board meeting on November 5, 2009.

Revisions to the draft Resolution, Technical Staff Report (including five Tech Memos), and Environmental Staff Report were posted earlier this week. Attached is a Notice regarding the new draft of the Environmental Staff Report.

Staff will be posting future updates and revisions on our Malibu Prohibition Web page, at this link: [http://www.waterboards.ca.gov/losangeles/press\\_room/announcements/Public-Hearing-Malibu/index.shtml](http://www.waterboards.ca.gov/losangeles/press_room/announcements/Public-Hearing-Malibu/index.shtml). Governor

October 23, 2009

### TO ALL INTERESTED PERSONS:

This is to notify you that the Regional Board has posted a revised version of the Environmental Staff Report (Report) regarding the proposed Amendment to the *Water Quality Control Plan for the Coastal Watersheds of Los Angeles and Ventura Counties (Basin Plan)* for a prohibition of discharges from on-site wastewater disposal systems in the Malibu Civic Center Area. A draft of this Report was posted on July 31, 2009. As a result of comments received, staff has made some revisions to the Report.

Pursuant to Title 14, California Code of Regulations, section 15088.5, staff is releasing this version so that the public can review it prior to the Regional Board's meeting on November 5, 2009, at which time it will consider adoption of the proposed prohibition

This Report is not being "recirculated" for additional comment because the changes and additions in this Report are not significant. Staff has clarified statements, added references and examples of mitigation measures in conjunction with the checklist included in the Report. No new significant environmental impacts were identified from the project or from new mitigation proposed. No substantial increases in the severity of an environmental impact were identified. No new project alternatives, compliance projects or mitigation measures considerably different from others previously identified and analyzed are proposed in this Report. Because the information added to this Report merely clarifies or amplifies or makes insignificant modifications, recirculation is not required.

For additional information regarding this Report, please contact **Wendy Phillips, Section Chief, Groundwater Permitting and Landfills**, at (213) 576-6618.

**Rosie Villar - Malibu Civic Center area Final Resolution**

27

---

**From:** Rosie Villar  
**To:** Rosie Villar  
**Date:** 11/18/2009 11:24 AM  
**Subject:** Malibu Civic Center area Final Resolution

---

On November 5, 2009, the Regional Board adopted the resolution to prohibit on-site wastewater disposal systems (septic systems) in the Malibu Civic Center area. The prohibition applies to all dischargers in the Civic Center area, including commercial and industrial facilities, public facilities, and residences. New septic discharges are no longer allowed and existing commercial and industrial dischargers and public facilities must cease discharge by November 2015 and residences by November 2019. For further details, go to

[http://www.waterboards.ca.gov/losangeles/water\\_issues/programs/basin\\_plan/index.shtml](http://www.waterboards.ca.gov/losangeles/water_issues/programs/basin_plan/index.shtml)

If you have any questions, please contact Dr. Rebecca Chou at (213) 620-6156 or [rchou@waterboards.ca.gov](mailto:rchou@waterboards.ca.gov).

Thank you for your interest in this matter.
