INTRODUCTION

This report provides an analysis of the financial and administrative obligations of Assessment District No. 98-1 (Big Rock Mesa) ("AD No. 98-1" or the "District") to be paid through the collection of assessments in fiscal year (FY) 2013-2014.

This report is organized into the following sections:

Section I - Background

Section I provides information regarding the formation of AD No. 98-1 and the facilities financed.

Section II - Cost Estimate

Section II presents the projected budget for FY 2013-2014, the budget for FY 2012-2013, and projected year-end costs for maintenance of the landslide maintenance facilities.

Section III - Annual Assessments

Section III contains the proposed assessment of the total FY 2013-2014 maintenance costs upon the parcels within AD No. 98-1 in proportion to the estimated benefits to be received by such parcels, from said maintenance.

<u>Section IV – Assessment Diagram</u>

Section IV includes a reduced copy of the assessment diagram.

I. BACKGROUND

The Board of Supervisors of the County of Los Angeles adopted a Resolution of Intention pursuant to the Municipal Improvement Act of 1913, Division 12 of the Streets and Highways Code commencing with Section 10000 (the "1913 Act"), and the alternative proceedings under the Special Assessment Investigation, Limitation and Majority Protest Act of 1931, Part 7.5 of Division 4 of the Streets and Highways Code (commencing with Section 2960), for the acquisition of necessary rights-of-way and certain landslide mitigation facilities and the design and construction of landslide mitigation improvements, together with appurtenances and appurtenant work (collectively the "Improvements") in a special assessment district designated County Improvement District No. 2629R2 (Big Rock Mesa Area) ("CI No. 2629R2"). Section 5 of said Resolution of Intention declared the Board's intention to levy an assessment to maintain, repair or improve the Improvements pursuant to Section 10100.8 of the 1913 Act. On November 7, 1989, following a duly noticed public hearing, the Board of Supervisors adopted a resolution confirming assessments and ordering improvements be made for CI No. 2629R2.

The Board of Supervisors also adopted Ordinance No. 89-0141 on November 7, 1989. This ordinance, which was subsequently amended by Ordinance No. 90-0054, adopted on April 17, 1990, established Integrated Financing District (IFD) No. 2 (the "IFD"), in conjunction with CI No. 2629R2, for the contingent assessment of undeveloped or underdeveloped properties in the Big Rock Mesa area.

On March 10, 1992, having determined that the improvements were substantially complete, the County notified the City that as of July 1, 1992, the County relinquished its jurisdiction over CI

No. 2629R2 to the City of Malibu for the purpose of levying assessments to maintain, repair and improve the Improvements pursuant to Section 10100.8 of the 1913 Act. The County is still responsible for the levying of annual assessments to repay bonds sold on behalf of CI No. 2629R2.

As part of the City's maintenance of the existing system of improvements, the City's Geotechnical Consultant monitors ground movement, dewatering activities, groundwater levels, and water usage within AD No. 98-1. As a result of the intense winter storms of 1997-98, the City's Geotechnical Consultant recommended reconstruction of the existing dewatering and monitoring system, including installation of additional dewatering wells and horizontal drains in the eastern mesa.

On June 29, 1998, the City Council of the City of Malibu held a public hearing regarding the Resolution of Intention and Engineer's Report for the reconstruction and annual maintenance of these improvements by AD No. 98-1. A majority of the assessment ballots tabulated at the public hearing were in favor of the assessment and a Resolution approving the Engineer's Report, confirming the assessments, and ordering the construction of the improvements was adopted.

FACILITIES AND MAINTENANCE FINANCED BY ASSESSMENT DISTRICT NO. 98-1

The City proposes to levy assessments in FY 2013-2014 to finance the activities and inspection, maintenance and repair of the following facilities:

- Dewatering wells (22 each),
- Inclinometers (28 each)
- Standpipes (29 each),
- Multi-stage piezometers (16 each),
- Hydraugers (34 each),
- Drainage swale cleaning/repair for brow drain between Little Rock Drive to Big Rock Drive and Seaboard Road.
- Drainage swales inspection;
- Energy costs,
- Water quality testing (required for NPDES compliance), and
- Ground crack observations.

The City of Malibu contributes the costs of the following activities to Assessment District No. 98-1:

- Weed abatement,
- Storm drain cleaning, and
- Road maintenance and crack sealing on public roads.

II. COST ESTIMATE

The maximum annual assessment for FY 2013-2014 is \$393.88 per benefit assessment unit, which reflects an increase of one and twenty-nine hundredths percent (1.29%) or the percentage change in the Consumer Price Index, All Urban Consumers, Los Angeles–Riverside–Orange

County, CA. The maximum annual increase in the maximum assessment is limited to five percent (5.00%). The benefit assessment units applicable to each parcel depend upon land use.

The FY 2013-2014 budget is \$289,935, which consists of costs for operation/maintenance, replacement/special projects, energy, and administration. This is based on projected needs for an average rainfall year. In addition to estimated costs, the assessment levy includes reserves to cover possible expenses associated with an above-average rainfall year and delinquent assessments. Any funds not used in the current year are held in the assessment district account and applied to the next fiscal year. The total desired reserve amount equals approximately \$275,143 or 94.90% of the estimated FY 2013-2014 budget (100.00% of costs for operation/maintenance and replacement/special projects for an above-average rainfall year and 6.99% of the total assessment for delinquency contingency based upon the FY 2012-2013 delinquency rate). The total amount necessary to cover the budget and reserves is \$565,078; subtracting this amount by the estimated FY 2012-2013 year-end fund balance of \$53,054 results in a desired assessment levy of \$512,024. This exceeds the maximum assessment revenues of \$278,119 by \$233,905. Therefore, it is estimated that only \$41,238 of the \$275,143 in desired reserves will be funded.

A comparison of FY 2013-2014 and FY 2012-2013 assessment amounts for selected land uses is shown in Table 1 below.

Table 1 Summary of Annual Maintenance Assessment Assessment District No. 98-1 (Big Rock Mesa) Fiscal Years 2013-2014 and 2012-2013

		Actual Annual Assessment		Maximum Annual Assessment	
Land Use	Benefit Units	FY 2013- 2014 FY 2012- 2013		FY 2013- 2014	FY 2012- 2013
Single Family Home	2.00	\$787.76	\$777.72	\$787.76	\$777.72
Condominium/Apartment	1.65	\$649.90	\$641.62	\$649.90	\$641.62
Total Budget		\$278,118.67	\$274,574.05	\$278,118.67	\$274,574.05
Total Benefit Units		706.10	706.10	706.10	706.10

The proposed budget, current budget, and projected year-end costs are itemized in Exhibit A.

III. ANNUAL ASSESSMENTS

Pursuant to the provisions of law, the costs and expenses of the works of improvement and maintenance to be performed in AD No. 98-1 have been assessed to the parcels of land benefited thereby in direct proportion and relation to the estimated benefits to be received by each of said parcels. For particulars as to the identification of said parcels, reference is made to the Assessment Roll, a copy of which is attached hereto as Exhibit B. For particulars as to the determination of benefit, reference is made to the Method of Assessment, a copy of which is attached hereto as Exhibit C.

IV. ASSESSMENT DIAGRAM

The assessment diagram is attached hereto as Exhibit D.

EXHIBIT C

ANNUAL ASSESSMENT REPORT ASSESSMENT DISTRICT NO. 98-1 (BIG ROCK MESA)

FISCAL YEAR 2013-2014

METHOD OF ASSESSMENT APPORTIONMENT

EXHIBIT C

ANNUAL ASSESSMENT REPORT ASSESSMENT DISTRICT No. 98-1 (BIG ROCK MESA)

FOR FISCAL YEAR 2013-2014

METHOD OF SPREAD OF ASSESSMENT

Assessments levied pursuant to the Municipal Improvement Act of 1913 (hereinafter referred to the "Act") must be based on the benefit which each property receives from the system of improvements. Furthermore, as a result of Proposition 218, more stringent standards have been imposed for determining benefit. For example, Proposition 218 requires that special and general benefits be separated, with the amount of any assessment limited to the special benefits so conferred. Neither the Act nor Proposition 218 specify the method or formula for apportioning benefit or distinguishing special from general benefits.

Identification of the benefit the reconstruction and maintenance of the system of improvements will render to the properties in the Assessment District is the first step in developing the assessment spread methodology. The next step is to determine if the properties in the Assessment District receive a direct and special benefit from the system of improvements which is distinct from benefit received by the general public. For this Assessment District these determinations were made by David Taussig and Associates, Inc., the Assessment Engineer; in consultation with the City's Geotechnical Consultant; and the City of Malibu Public Works Department.

Project Need

The primary purpose of the dewatering and monitoring system to be installed and maintained by the District is the reduction of groundwater, from both rainfall and residential effluent, percolating down to the slide plane. This reduction in groundwater stabilizes the landslide outlined on the Diagram attached as Exhibit D. Stabilization of the landslide plane provides two distinct types of benefit to property within the District: protection of the property (i.e. the parcels) located on the slide plane and protection of the roads which would be inundated with mud in a slide event.

Assessment District Boundary

The District boundary as shown in Exhibit D was established to encompass those properties which are specifically benefited by the system of improvements. This includes all properties which are located in whole or in part within the ancient landslide area.

Specific Benefit

The system of improvements to be installed and maintained by the District specifically benefit the properties within the District in two distinct ways: protection of the property and protection of the roads. First, properties located within the ancient slide boundary are reducing the risk and degree of damage or distress suffered from slope failure and/or movement (the "Protection" benefit). Second, access is maintained for those properties which are reached using roads affected by the slide (the "Access" benefit). The benefits associated with Protection and Access are deemed to be equal, since use of the property cannot be fully enjoyed without either one.

Since the roads within the District, except for Pacific Coast Highway (PCH), do not convey through traffic, there is no general benefit to the public for such road access. With respect to PCH, which does convey through traffic, properties located on PCH west and east of the slide area would have access via other roadways, whereas no access would be available to properties located on PCH within the landslide area. Clearly, stabilization of the slide confers a special benefit enjoyed only by the properties which may be impacted by slope failure or movements. The April 1998 analysis prepared by City's Geotechnical Consultant, confirms that the impacted properties are all located either within or on the slide boundary.

Method of Assessment

After the boundary of the District has been established and the determination of specific benefits has been made, the assessment to individual properties must be determined. As previously discussed, there are two types of direct and special benefit conferred upon property within the District, Protection and Access.

Protection benefits are allocated based on land use designation. The reason for this allocation is two fold. First, the proposed system of improvements have been sized to provide adequate dewatering capacity at full buildout. Second, the Protection benefit conferred upon each parcel of property is a function of each parcel's land use designation and number of dwelling units. Each dwelling unit is deemed to be equally protected, therefore, no differentiation is made between single family or condominium/apartment units. For purposes of assigning Protection Benefits to each parcel, one dwelling unit equals one Benefit Assessment Unit (BAU).

Access benefits are allocated to each parcel of land based on the estimated number of trips for that parcel's land use designation. Trip factor source data are from the Institute of Transportation Engineers Trip Generation study (5th Edition). The trip generation factors are shown on the following page:

Trip Generation Factors and Benefit Assessment Units

Land Use	Average Weekday Trips/Units	Benefit Assessment Units (BAUs)
Single Family	9.55	1.00
Condominium/Apartment	6.23	0.65

Examples of Assignment of Benefit Assessment Units

Single Family Residential Parcel

Three examples of the assignment of benefit assessment units are provided below for the following: (1) a single family residential parcel, (2) a parcel with a single condominium unit, and (3) a parcel with four apartment units.

` '	BAU for Protection Benefit	1.00
	BAU for Access benefit	1.00
	Total BAUs	2.00
(2)	Parcel with Single Condominium Unit	
()	BAU for Protection Benefit	1.00
	BAU for Access benefit	0.65
	Total BAUs	1.65
(3)	Parcel with Four Apartment Units	
` /	BAU for Protection Benefit	4.00 (4 units X 1 BAU/unit)

Exemption from Annual Assessment

BAU for Access benefit

Total BAUs

(1)

Any property within the District that is restricted in use as open space or against which a deed restriction preventing development is recorded may be deemed exempt from the levy of annual maintenance assessments by the City Council of the City of Malibu.

6.60

2.60 (4 units X 0.65 BAU/unit)
