MAILING ADDRESS AND RADIUS MAP PROVIDERS

Property owner & occupant addresses on mailing labels will not be accepted. Mailing addresses and radius maps shall be submitted in digital format. Following are the new guidelines.

- The addresses of the property owners and occupants within the mailing radius shall be provided digitally in a Microsoft Excel spreadsheet. The radius map shall show a 500-foot radius* from the subject property and must show a minimum of 10 developed properties. A digital copy of the map shall also be submitted. Both the excel spreadsheet and radius map must be certified by the preparer as being accurate and that certification must be provided digitally.
- The spreadsheet shall have the following column headers in row one: 1) name, 2) address, 3) city, state & zip code, and 4) parcel (for APN). The owners should be listed first followed by the occupants. The project applicant's mailing address should be added at the end of the list.
- An additional column for "arbitrary number" may be included if the supplied radius map utilizes such numbers for the purpose of correlating the addressee to their map location.

*Wireless communication facility projects and properties zoned RR-10, RR-20, or RR-40 require a 1,000-foot radius notification.

These names are included for your convenience only. You are not required to use any of these companies and no recommendation is made.

Mailing addresses and radius maps are available through:

Advanced Listing Services, Inc.
P.O. Box 2593
