City of Malibu Planning Division
Story Poles

Story poles are placed to demonstrate height, bulk and location of a proposed project that may potentially impact public and/or private views. The placement of story poles shall be required for all Coastal Development Permits and for certain discretionary requests associated with Administrative Plan Review applications.

Review of the story poles ensures that permitted development is sited and designed to protect public views to and along the ocean and scenic coastal areas consistent with the Malibu Local Coastal Program and to protect private primary views in accordance with Malibu Municipal Code Section 17.40.040(A)(17).

These names are included for your convenience only. You are not required to use any of these companies and no recommendation is made.

Story poles are available through:
